

HP 1000 A-Series Computer Products, U.S. Domestic Price List

Effective January 1, 1988

Introduction

This price list provides January 1, 1988 prices for the HP 1000 A-Series Computer Hardware, Software, Peripherals, and Support Ordering Information packet (5954-8580(D)), effective November 1, 1987. This price list can also be used with the non-U.S. version of the HP 1000 A-Series Ordering Information booklet (5954-8580), also effective November 1, 1987.

Product and service prices printed in this price list apply only in the United States (service prices are higher in Alaska) and are subject to change without notice. Quotations will be based on the HP Corporate Price List and HP Service Price Book that are current at the time of the quotation. Prices in the final quotation thus may differ from the prices in this price list.

Prices are listed for all products and for all options that have a non-zero price in a style that is consistent with that used in the November 1, 1987 Ordering Information packet. A symbol points to products or options whose list or BMMC prices differ from those in the November 1987 Ordering Information, as shown in the example below. This tells you if prices in your November 1987 Ordering Information need to be changed to provide a budgetary quote with the latest effective prices.

Ordering Information				

Organization

This eight-page price list is arranged in product number order to facilitate location of prices. The top of each inside page gives the range of product numbers whose prices are listed on that page. Subheadings within each page provide further indexing help, as shown in the format example below.

Prices are indexed by product number	List and BMMC prices are given except for options whose price is \$0	Gives number(s) of affected page(s) in the Ordering Information packet

Prices in the /BMMC Subsection of the List Price/BMMC Column

Basic Monthly Maintenance Charges (BMMCs) and Other Hardware Support Charges

For hardware (virtually all product numbers between 2134A and 39301A), dollar amounts in the /BMMC subsection of the List Price/BMMC column are Basic (hardware) Monthly Maintenance Charges. However, BMMC is not offered for certain terminals, PCs, and other devices. Where that is true, the price in the BMMC subsection may be tagged with an "s" suffix, signifying that it is a Standard Monthly Maintenance Charge (SMMC) or a "w" suffix, signifying that it is a Workstation Monthly Maintenance Charge (WMMC).

Software Maintenance Charges

For software product numbers that carry an appended +Hxx, +P00, +Q00, +Sxx, +Txx, +Vxx, or +Wxx suffix, the dollar amount in the /BMMC subsection of the List Price/BMMC column is a software maintenance charge, rather than a hardware BMMC charge. The respective software support products are discussed briefly on page 63 of the HP 1000 A-Series Configuration and Ordering Guide (5954-8777).
