HP-35 Accessories that Enhance, Protect and Increase Overall Versatility

Security Cradle

Battery Holder

Field Case

SECURITY WITH VERSATILITY: The HP-35 Security Cradle is a practical way to end any normal pilferage problem. The Cradle is secured at your work area and you use your coded key to easily open and insert or remove your calculator. While inserted you have complete access to the keyboard and display. There are four convenient ways to attach the Security Cradle. (1) Four screws to work surface, (2) center-screw attachment, allowing 360° rotation, (3) removable six-foot steel cable, and (4) double-sided adhesive tape that attaches the security cradle to your desk, making it virtually unremovable by hand.

RECHARGING CONVENIENCE-INSTANT POWER: You will always have a fresh, fully-charged, spare battery pack waiting for you when you use the HP Battery Holder and your Model HP-35 recharger. Simply replace the battery pack in the calculator with the fully charged battery pack from the Battery Holder. Each time you return to your office, your extra battery pack is ready for use. A built-in indicator lights up when the batteries are accepting a charge.

RUGGED PROTECTION IN THE FIELD: Snap on the hard-leather HP Field Case, insert your HP-35 calculator, and you will have sturdy protection for your HP-35 no matter where you go. The formfitting Field Case protects your calculator from normal field environmental conditions of dust, dirt, weather and physical bumps or jars. Calculator removal is easy with the snap-open flap and contoured front opening.

SPECIFICATIONS

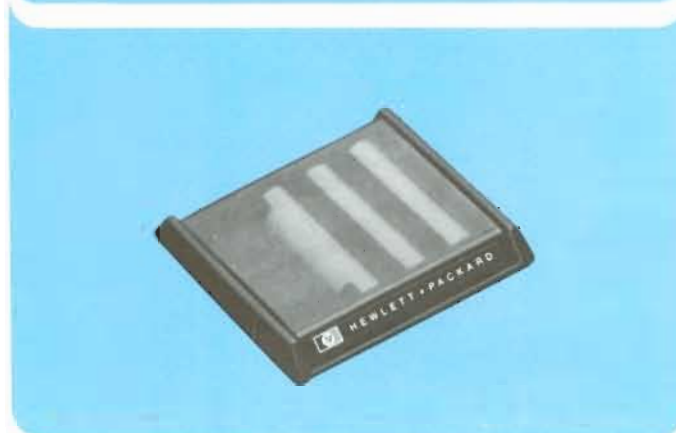

Security Cradle

Dimensions: Length 8.3 inches, width 4 inches, height 1.5 inches
 Weight: 11 ounces (excluding cable)
