

At last—Hewlett-Packard has designed a PC printer that does it all! PaintJet combines brilliant color graphics with fast, near-letter quality text to create presentation overheads that generate “aahs” instead of yawns. (Not to mention engineering drawings.) And it works with all popular spreadsheets, word processing, and CAD software. PaintJet’s two disposable print cartridges hold four specially-formulated inks capable of producing thousands of vivid colors.

HP's PaintJet—The Color Graphics Printer

“Quality Supplies for Quality Graphics”

HEWLETT-PACKARD SUPPLIES FOR THE BEST IN COLOR

- for HP's PaintJet Color Printer
- for HP's Color Desktop Plotters

HP's Color Desktop Plotters

To order HP PaintJet printer and desktop plotter literature, or for the name of the HP dealer nearest you, just call 1-800-752-0900, extension 913A.

Color overheads add impact to any presentation and Hewlett-Packard color desktop plotters are a quick, easy, and convenient way to create professional-quality presentation overheads in brilliant color. All HP desktop plotters—the HP ColorPro, 7550, and 7475—produce colorful charts and graphs on 8½ × 11 inch paper. Plus, the HP 7550 and 7475 also create 11 × 17 inch posters or flip charts for meetings, and even CAD drawings for technical applications.

HP Supplies—for the Best in COLOR

COLOR makes any presentation more effective—it's a proven fact.* And to get the best COLOR from your PaintJet printer or color desktop plotter, always use HP supplies. They're specifically designed for use with your HP color peripheral. So you'll get the best in COLOR—for the best results!
