

Hewlett-Packard solves the puzzle with the:

**HP Series 6000
Models 330S and 660S**

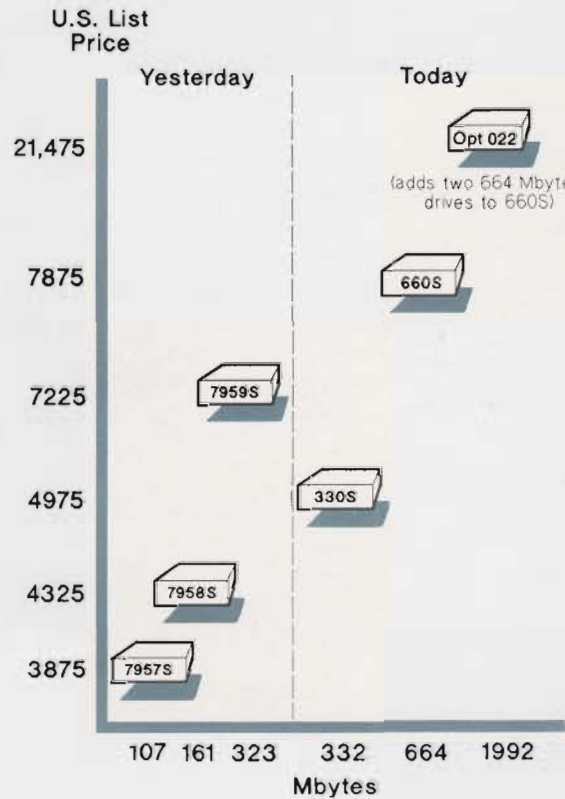

- 332 megabyte hard disk
- 664 megabyte hard disk
- 1.3 gigabyte digital audio tape DDS-format drive
- 600 megabyte CD-ROM drive
- 650 megabyte rewritable optical disk drive

Featuring . . .

- state-of-the-art mass storage peripherals
- SCSI interface
- high capacity
- high performance
- high reliability
- low cost

. . . all in one compact package!

**HP Series 6000
Models 330S and 660S
Mass Storage Systems offer . . .**

. . . more capacity at a lower cost per megabyte!

Printed in U.S.A. M1289
Part number 5952-0633

The HP Series 6000 Mass Storage Systems

**Puzzled over
how to piece together**

- high capacity on-line storage
- high performance backup
- audio/visual training programs
- manual and published database storage
- direct access secondary storage

**for your HP workstations
at the perfect price?**

Winchester Disk Drive

- 5.25-inch full-height mechanisms with 332 or 664 megabytes
- up to 2 gigabytes per storage system
- on-line mass storage

Digital Audio Tape DDS-Format Drive

- 5.25-inch full-height
- 1.3 gigabytes
- backup

The HP Series 6000 Models 330S and 660S Mass Storage Systems fit your SCSI high performance HP stand-alone workstation and server storage needs.

These mass storage systems integrate HP's own 332 and 664 megabyte disk mechanisms with the new digital audio tape, CD-ROM, and rewritable optical technologies, all in one compact enclosure. This integration occurs at the factory or with customer installable upgrade kits.

Configure your unique mass storage needs at a list price lower than the sum of the stand-alone peripherals. Floor space requirements are less too, so you can save even more!

For more information contact your local HP telesales or sales representative.

CD-ROM Drive

- 5.25-inch half-height
- 600 megabytes
- audio/visual capabilities
- manual and published database storage

Rewritable Optical Disk Drive

- 5.25-inch full-height
- 650 megabytes per cartridge
- direct access secondary storage
