STEP 2: For an 800 support solution MUST choose an Operating System service based on user level.
(This step is NOT required for the SERIES 700)

****Option Table****

Support level	Product number	User License	Option #	
TELEPHONE ASSISTANCE SOLUTION Telephone Assistance Support	B3108L+H00	2	UA1	
	B3108L+H00-option #	8	UA3	
	License-To-Use Support	B3108L+L00	16	UA5
		B3108L+L00-option #	32	UA7
		64	UA9	
		128	UAB	
		256	UAD	
		Unlimited	UAT	

STEP 3: If media and documentation is required for the Operating System MUST choose one of the following.
Choose PAPER or MANUALS and specify MEDIA TYPE

Type	Product number	Media Type	Media Option
PAPER MANUALS	H2070A+S00	CD ROM	AAF
	H2070A+S00-proc.tier	DDS (DAT)	AAH
	H2070A+S00-media opt	MAG TAPE	AA1
CD-ROM MANUALS	H2069A+S00		AA4
			0LL

* Only applicable for H2070A service

STEP 4: To configure support for software applications choose EITHER "A or B" OR "A and B" depending upon the application.

Application support provides software assistance at the same level as the operating system, license to use, and software media and documentation.

A. For product specific support product numbers

Support level	Product number
TELEPHONE ASSISTANCE SOLUTION	
Telephone assistance support	XXXX+H00+opt #
License-To-Use support	XXXX+L00+opt #
Software media updates	XXXX+B00+opt #
Software paper doc updates	XXXX+D00+opt #
LICENSE TO USE SOLUTION	
License-To-Use support	XXXX+L00+opt #
Software media updates	XXXX+B00+opt #
Software paper doc updates	XXXX+D00+opt #

User license	Option #
2	UA1
8	UA3
16	UA5
32	UA7
64	UA9
128	UAB
256	UAD
Unlimited	UAT

TIPS:

To determine if an application requires product specific support enter product number XXXXXX into PRISM with the support prefix (H00,L00,B00,D00). If invalid, price the application according to a generic product.

Generally networking and PC applications tend to require product specific support.

B. For generic software products

Order quantity depending on the number of generic application products.

H2014A+S00
H2014A+S00-proc.tier *

* proc. tier comes from STEP 1.

STEP 5: For manual updates outside the core manual set an additional update service is required.

This quick price can be used to provide budgetary figures to your customers on your first year support.

For formal quotations, please use the configuration template included in the price guide.

HOW TO USE:

STEP 1. Must choose a level of support service. Choices include -

- Personalized Support
- Telephone Assistance
- License to Use

STEP 2. For Series 800 must specify user level. This step is not required for the Series 700.

STEP 3. For customers to receive software and media updates an option must be selected. (a) Must choose paper or CD ROM, or both. (b) Must choose media type.

STEP 4. To receive media and documentation updates on software applications include this step.

As a quick price or not all applications can be represented here. Some applications require a higher level of configuration. Please refer to the price book configuration template if required. Those not included under generic applications are generally PC or networking related.

Provision has not been made here for support on development tools. These require a higher price book.

STEP 5. Appropriate for customers who want manuals outside the core set.
