This catalog provides cross-reference lists of the 92066A software modules and the media on which the software modules are distributed. The purpose of the lists is to define the software modules currently supported with the product and to indicate the part numbers of different media on which these modules reside.

You will find several uses for this catalog. For example, you can use it to:

- order replacement software on the media type you need.
- find the software residing on any media type.
- determine the names of files on the media's directory.

This catalog contains two lists: the first is collated by software module number; the second by file name. The column heading of the lists define:

MODULE FILE NAME	The unique, 6-character file name of the software module. The file names are the names used in the file directory of any medium which contains more than one software module (for example, an RTE FMP disc directory or a mini-cartridge directory).								
MODULE DESCRIPTOR	A concise definition of the software module.								
SOFTWARE MODULE NUMBER	The part number of the software module; the paper tape part number of the software module.								
PART NUMBERS	The part numbers of the various media on which the software modules reside. Currently there are four possibilities: <table><tr><td>Paper Tape</td><td>The number of the software module is the number of the paper tape part.</td></tr><tr><td>Mini-Cartridge</td><td>A collection of software parts stored as files on a minicartridge.</td></tr><tr><td>7900 Disc</td><td>A collection of software modules stored as named files on a 7900 RTE master software disc.</td></tr><tr><td>7905 Disc</td><td>A collection of software modules stored as named files on a RTE master software disc.</td></tr></table>	Paper Tape	The number of the software module is the number of the paper tape part.	Mini-Cartridge	A collection of software parts stored as files on a minicartridge.	7900 Disc	A collection of software modules stored as named files on a 7900 RTE master software disc.	7905 Disc	A collection of software modules stored as named files on a RTE master software disc.
Paper Tape	The number of the software module is the number of the paper tape part.								
Mini-Cartridge	A collection of software parts stored as files on a minicartridge.								
7900 Disc	A collection of software modules stored as named files on a 7900 RTE master software disc.								
7905 Disc	A collection of software modules stored as named files on a RTE master software disc.								

SOFTWARE MODULE NUMBERS: 92066A, August 1976

Software Module Number	Module File Name	Module Descriptor	Part Numbers		
			Mini-Cartridge	7900 Disc	7905 Disc
02313-16001	*30V62	RTE-III 2313 DRIVER	92066-13301		
02313-16002	*12313	RTE 2313 ON-LINE VERIFICATION	92066-13301		
09611-16005	*0VA72	RTE 6940 LOCAL/REM DRIVER	92066-13301
