

## Consumables

*For Continued High Performance*

HEWLETT  PACKARD

## Quality doesn't end with your HP desktop computers and peripherals ... it continues with our extensive line of consumables.

HP consumables listed in this catalog have been developed to help HP desktop computers and peripherals maintain continued high-quality performance. As an integral part of many of our desktop computers and peripherals, HP consumables are required to meet rigid quality-control specifications to insure optimum performance in your desktop computer system.

For example, HP manufactures its own tape cartridges with metal backplates for static protection. To maintain just the right amount of pressure to keep tape tension stable, tension pins are inserted in the metal backplates. In addition to manufacturing the cartridge, we also test and certify the tape before it is thoroughly cleaned and loaded into cartridges. HP's tape head cleaner helps you prevent early wear of heads and tapes, and it reduces signal dropout and garbled transmissions.

To guarantee bold, clear, hardcopy output, paper for our thermal printers is tested for smudging, abrasiveness (the primary cause of print head wear), print contrast, humidity and temperature variations before we select the paper with the best set of total performance characteristics.

Individual accessory kits are provided with all our desktop computers and peripherals to make sure you get started with the right supplies for maximum performance of your HP equipment.

HP consumables are available through two convenient, reliable HP distribution centers — one in the U.S. and one in the Federal Republic of Germany — totally dedicated to fast delivery of your supplies.

## How To Use The Catalog

If you know the general description of your consumable, the Table of Contents on page 2 indicates where each consumable product category is located. If the part number of the consumable you wish to purchase is known, refer to the Part Number Cross Reference Guide on page 2. If you know the model number of your equipment and would like a description of the consumables available, refer to the Desktop Computer/Peripheral Cross Reference Guide on page 3. Each listing in the catalog gives individual consumable descriptions, part numbers and a list of desktop computers and peripherals for which it can be used.

## How To Order

HP desktop computers, peripherals and consumables are supported by a dedicated field force and 30-year reputation for quality and reliability. One hundred and seventy-five field sales and service offices, listed in the back of the catalog are equipped for prompt efficient handling of your order or inquiry.

When you order, please call your local HP sales office to verify the following:

- the exact part number,
- the complete description of each consumable,
- the name and model number of the equipment with which the consumable is to be used,
- the correct price of each consumable,
- the correct extended total price for quantities of these consumables. (If you are using large quantities, ask about quantity discounts.)

For orders of \$20.00 or more, you may place the order directly with your local HP sales office. For orders less than \$20.00, send a check (no cash) payable to: Hewlett-Packard, Mail Order Dept., P.O. Drawer #20, Mountain View, California 94043. Check should include local tax and \$1.50 for handling charges.
