Furniture that Solves
Your CAD Workstation Needs
for HP 9000 Series Computers

***Design Plus* furniture was developed with you and your HP computer system in mind.**

The *Design Plus* line matches your equipment perfectly: form, fit and function were designed to integrate with all aspects of your HP computer system. The *Design Plus* line locks together piece by piece. You can configure your workspace layout and expand at any time to suit changing system needs.

Getting started

Shown above is the basic configuration for a CAD system layout. Shown from left to right are the *Design Plus* 92211N mobile drawer unit, 92214B medium system table, 92214K CAD corner workstation, and two 92211R mobile mini-rack system cabinets. The cabinets are loaded with HP 9000 Series 300 computer hardware. Also shown is the *Design Plus* chair, 92208F.

What's the "Plus"?

There are several: computer system cable management, expandable storage, non-glare surfaces, CAD-ready workstations, ergonomic seating . . . all combine to give you the convenience and comfort that comes from a furniture system designed for your CAD workstation application.

The CAD workstation shown here is an expanded version of the one above. Added to the basic system are the 92214J PC corner workstation, 92213F large CAD workstation, 92212Q task lamp, 92211B LaserJet cabinet and the 92208P managerial chair.

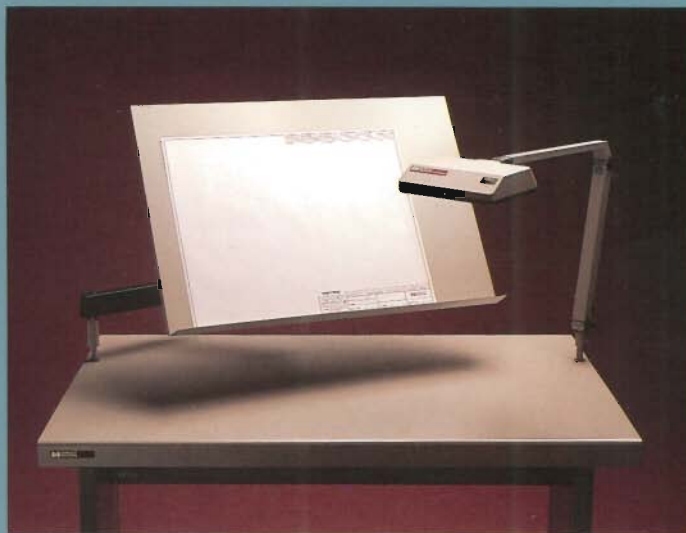

DESIGN PLUS CAD WORKSTATIONS: Capable of supporting the largest and heaviest CAD systems and monitors. Pull-out keyboard drawers in all three. 92213F Large CAD workstation, 92213B mini-CAD workstation, 92214K CAD corner workstation.

DESIGN PLUS RACK MOUNT SYSTEMS and STORAGE: Computer racks, locking storage drawers. Front: 92211R mobile mini-rack system cabinet, 92211N mobile drawer unit. Back: 92211M small mobile support cabinet, 92211L mobile support cabinet.

DESIGN PLUS SYSTEM TABLES: Room to spread out a project gives expanded workspace to the CAD designer and engineer. Shown from left to right: 92214C large system table, 92214B medium system table, 92214A small system table.

DESIGN PLUS CUSTOMIZING ACCESSORIES: Tools to make Computer Aided Design easier on the eyes. 92213D Drawing holder for C/D size paper, 92213Q task lamp. Both fit into the Design Plus system tables and workstations.

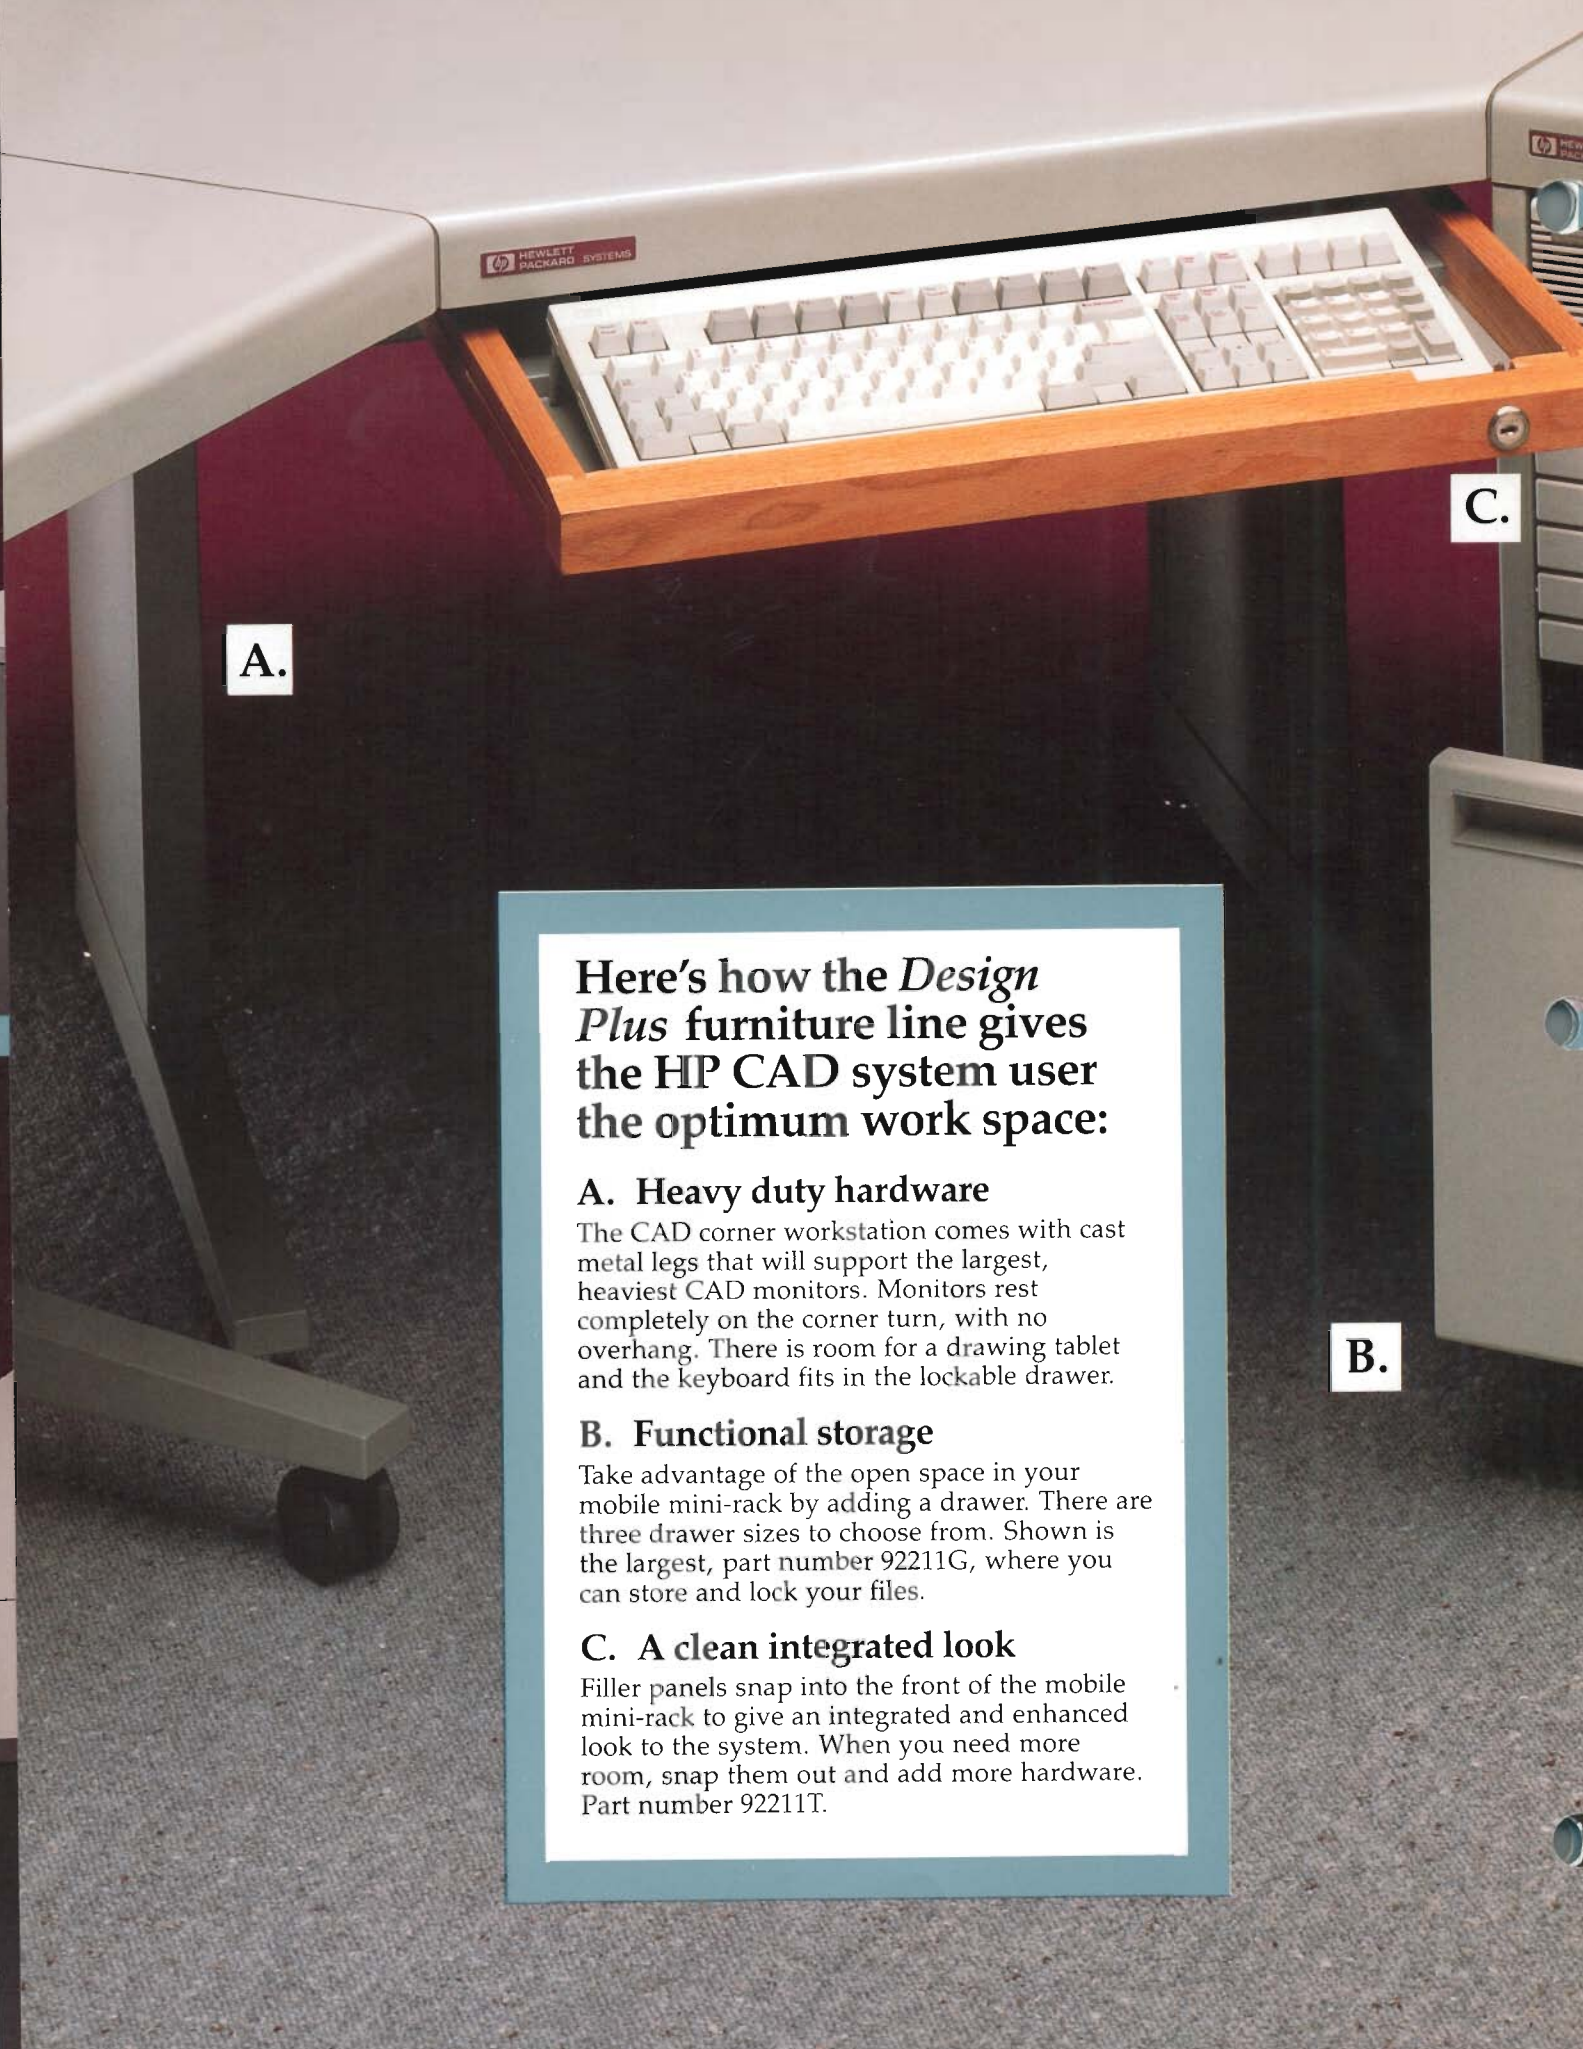

DESIGN PLUS CABINETS and ENCLOSURES: Quiet operation and easy access for system printers. From left to right: 92211C mobile sound enclosure cabinet, 92211B mobile LaserJet printer cabinet, 92214P universal support stand.

DESIGN PLUS CHAIRS: Fully adjustable to give hours of comfort and support. Front row: 92208P executive chair, 92208M managerial chair. Top: 92208N managerial chair, with optional armset. Chairs come in three colors: beige, blue and grey.

Here's how the *Design Plus* furniture line gives the HP CAD system user the optimum work space:

A. Heavy duty hardware

The CAD corner workstation comes with cast metal legs that will support the largest, heaviest CAD monitors. Monitors rest completely on the corner turn, with no overhang. There is room for a drawing tablet and the keyboard fits in the lockable drawer.

B. Functional storage

Take advantage of the open space in your mobile mini-rack by adding a drawer. There are three drawer sizes to choose from. Shown is the largest, part number 92211G, where you can store and lock your files.

C. A clean integrated look

Filler panels snap into the front of the mobile mini-rack to give an integrated and enhanced look to the system. When you need more room, snap them out and add more hardware. Part number 92211T.

D. CAD hardware security

Rail kit 92211S, for the mobile mini-rack, holds HP CAD hardware securely in place. Snap locks anchor the hardware to the rack and prevent sliding. The kit has enough rails to hold four computer modules.

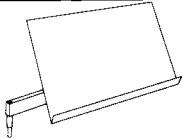

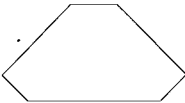

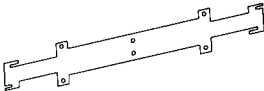

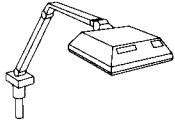

E. Mobile stability

All mobile mini-rack system cabinets come with sturdy casters as well as rubber-padded leveling legs. Roll each cabinet into place, and secure it with the leveling legs. Then, level each piece of furniture to its neighbor to create an unobstructed work surface.

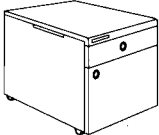

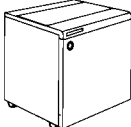

E. Anchor it all together

The joining bracket kit, 92211U, lets you lock your furniture together. Each piece of furniture has snap locks that the bracket slides onto. Once in place, the next same-height piece of furniture slides onto the bracket and locks in place, with all surfaces flush. The bracket shown is latched into a mobile mini-rack system cabinet, 92211R.
