Dear Touchscreen Owner:

How would you like to transform your Touchscreen Personal Computer into a powerful, versatile business graphics system? To create the professional-looking, persuasive presentations that other personal computers simply cannot deliver?

Well, now you can—if you take advantage of this special offer that Hewlett-Packard is making for a limited time only.

Act now and we'll send you our new Graphics Gallery—a complete set of compatible graphics software specially designed to add clarity and impact to all your business presentations and reports.

What's more, if you order now, we'll also make sure you receive our Special Edition Picture Library at no charge whatsoever. That's a \$95 value—an offer too good to pass up!

Here's all you need to put The Graphics Gallery to work.

The Gallery Collection includes Drawing Gallery (\$345) Charting Gallery (\$265) Picture Library Vol. II (\$95)

45437A

\$585

Ordering Information

The Graphics Gallery requires at least 384K of memory (minimum Touchscreen configuration is 256K) and a mouse. Touchscreen PC (9" screen) owners will need an HIL board to connect the HP Mouse. Here are some recommendations on what to order:

1. If you have a Touchscreen PC (9" screen) with no added memory board, order an HP Mouse (46060A) and a 384K memory board with HIL connector for the mouse (45915A). This memory/HIL board installs into your system and the HP Mouse connects into the board.
2. If you have a Touchscreen PC (9" screen) with an additional memory board already installed, order an HP Mouse (46060A) and an HP-HIL board (45914A). The HP-HIL board installs into your system, and the HP Mouse connects into the board. (If both expansion slots in the back of your system are already filled, see option 5 below.)
3. If you have a Touchscreen II PC (12" screen) with no added memory, order a 256K memory board (45631A) and an HP Mouse (46060A). The HP Mouse connects directly into the keyboard. (Thus there is no need for an HP-HIL board.)
4. If you have a Touchscreen II PC (12" screen) with an added memory board, just order an HP Mouse (46060A). The HP Mouse connects directly into the keyboard. (Thus there is no need for an HP-HIL board.)
5. If you prefer, you can use a 25-pin Microsoft compatible mouse* with any Touchscreen or Touchscreen II. Using a cable from HP (92222M), this mouse connects into an RS-232 port on your system. This mouse must be purchased from a dealer. It is not available from HP. If your system does not have an extra memory board installed, order a 256K memory board (45631A).

*While Hewlett-Packard has tested Microsoft-compatible devices and has made sure they operate properly with the software, such devices are not supported by Hewlett-Packard. Only the HP Mouse (listed above) is fully supported and can be ordered through Hewlett-Packard.

WHY YOU NEED THE GRAPHICS GALLERY.

You've seen them.

Business presentations that go on and on without getting to the point.

Or boring, dull, wordy reports filled with meaningless numbers.

Ineffective communications like these can have truly devastating effects. They can rob your ideas of their persuasiveness, and ultimately even hurt your bottom line.

In order to cut through today's business communications clutter, you need to harness the remarkable, visual power of presentation graphics. To translate mere words and numbers into motivating ideas that convince, persuade, and sell.

Now, with The Graphics Gallery, you can create professional-quality overhead slides or printed reports—the finest produced by any personal computer on the market!

If effective communication is essential to your business success, you simply must get The Graphics Gallery!

THE GRAPHICS GALLERY—A CLOSER LOOK...

Here's what you'll receive when you order our Graphics Gallery family of outstanding business graphics software:

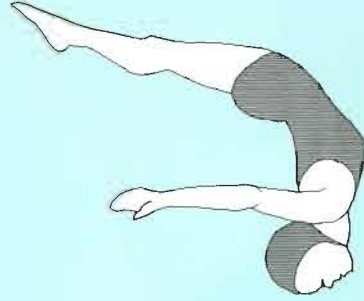

Charting Gallery. It transforms confusing columns of numbers into easy-to-read bar, pie, or line graphics and charts. Information from these charts can be transferred from existing spreadsheets (like those generated by Lotus[™] 1-2-3[™] or Deluxe VisiCalc) or can be entered manually.

Drawing Gallery. Now you can easily create organizational charts, flow charts, and other graphics using built-in electronic templates. And you can create text, add boxes or special figures, and shrink or enlarge any part of your drawing, just by pointing to it with your HP Mouse.

You can use Drawing Gallery to customize and enhance any chart created with Charting Gallery. Included with Drawing Gallery is a built-in library of pictures that can be used to enhance your charts and drawings.

Any graphics you produce can be merged with documents you've written using Executive MemoMaker, a versatile, integrated word processor.

Your free Special Edition Picture Library. Order the Graphics Gallery and you'll receive an additional set of over 60 ready-made drawings at no cost whatsoever! All these professionally created images can be used to enhance drawings, charts—you name it. This incredible software package, valued at \$95, is

I'm so sure you'll be impressed with all our exciting Graphics Gallery software, that I've enclosed an unretouched sample of plotter output for you to examine personally. It was created using Charting Gallery, Drawing Gallery, and our Picture Library. As you can see the Graphics Gallery puts a flexible communications tool, literally at your fingertips.

For full details about all these exciting Hewlett-Packard products, take a look at the colorful brochure I've enclosed.

I think you'll agree that The Graphics Gallery is the perfect productivity partner for your Touchscreen Personal Computer!

HERE'S HOW TO ORDER.

1. Purchase The Graphics Gallery Collection (#45437A) between October 15, 1985 and January 31, 1986.

You can order:

- From your Hewlett-Packard sales representative.
- From your local Hewlett-Packard dealer. (Call 1-800-367-4772 for the name of the one nearest you.)
- Direct, by calling, toll-free, 1-800-538-8787. In California, (408) 738-4133.

2. Complete the enclosed Picture Library Mail-In Coupon and return it *along with a copy of your sales receipt or packing slip to the address specified on the coupon by February 15, 1986.*

We'll send you your free Special Edition Picture Library by return mail.

I urge you to act promptly. This limited-time offer was specially designed to help valued Hewlett-Packard customers, like you, take full advantage of their Touchscreen Personal Computers.

Don't miss this chance to give all your reports, memos, and other documents, the added impact of professional, high-quality business graphics.

I invite you to take advantage of this special limited-time offer today!

Sincerely,

Gary Ambrosino
Brand Manager
Graphics Gallery

P.S. Please remember, the money you save on graphics artists and slides for one or two presentations could well pay for the *entire* cost of The Graphics Gallery—a communications tool you can use for a lifetime!
