There's more to a toner cartridge than toner.

HP LaserJet toner cartridges are state-of-the-art imaging systems made up of several highly sensitive parts.

We've estimated that every several thousand pages, parts in the toner cartridge's imaging system could wear out. The organic photoreceptive drum could become scratched. The corona wire could become contaminated, lessening print quality. The cleaning blade could wear and stop cleaning effectively. Excess toner might even spill into the cleaner assembly and clog your printer.

The cleaner blade
prepares the drum for fresh toner,
so images print sharply.

The toner reservoir
holds the correct amount of toner,
so images print cleanly.

The photoreceptor
attracts toner with controlled
static, so images print easily.

92295A Toner cartridge for HP LaserJet III, II, and IID printers, black print.

92275A Toner cartridge for HP LaserJet IIP printer, black print.

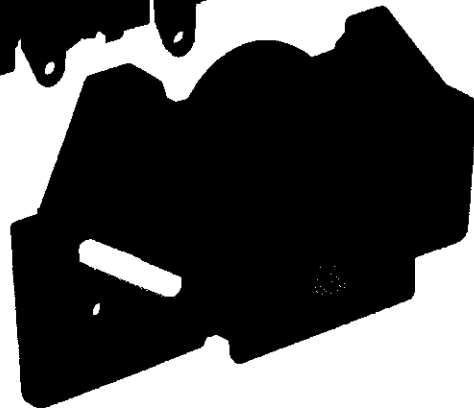

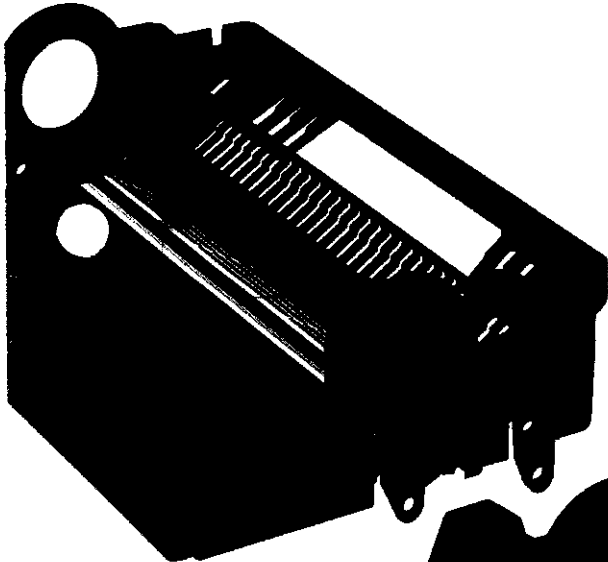

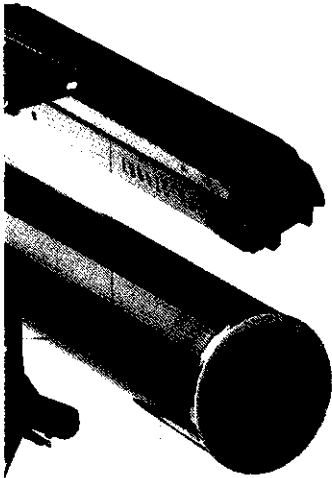

Refresh your imaging system.

Thanks to the ingenious design of HP's LaserJet printer, you can easily replace worn imaging parts yourself—every time you install a new toner cartridge from HP.

By installing a new HP LaserJet toner cartridge, you can do more than just replace the toner:

- You enable your LaserJet to produce the sharpest, cleanest, problem-free printing possible.
- You give yourself the peace of mind of a 90-day cartridge warranty.
- And, you refresh your printer's imaging system with a single, easily installed cartridge.

So when your LaserJet's print begins to fade, remember to maintain top performance in your printer by installing a HP LaserJet toner cartridge.

The corona wire charges the drum to prepare it for image formation, so images print without missing parts.

Choosing type from the HP MasterType Library.

Give your reports and documents visual impact with fonts and typefaces from the HP MasterType Library.

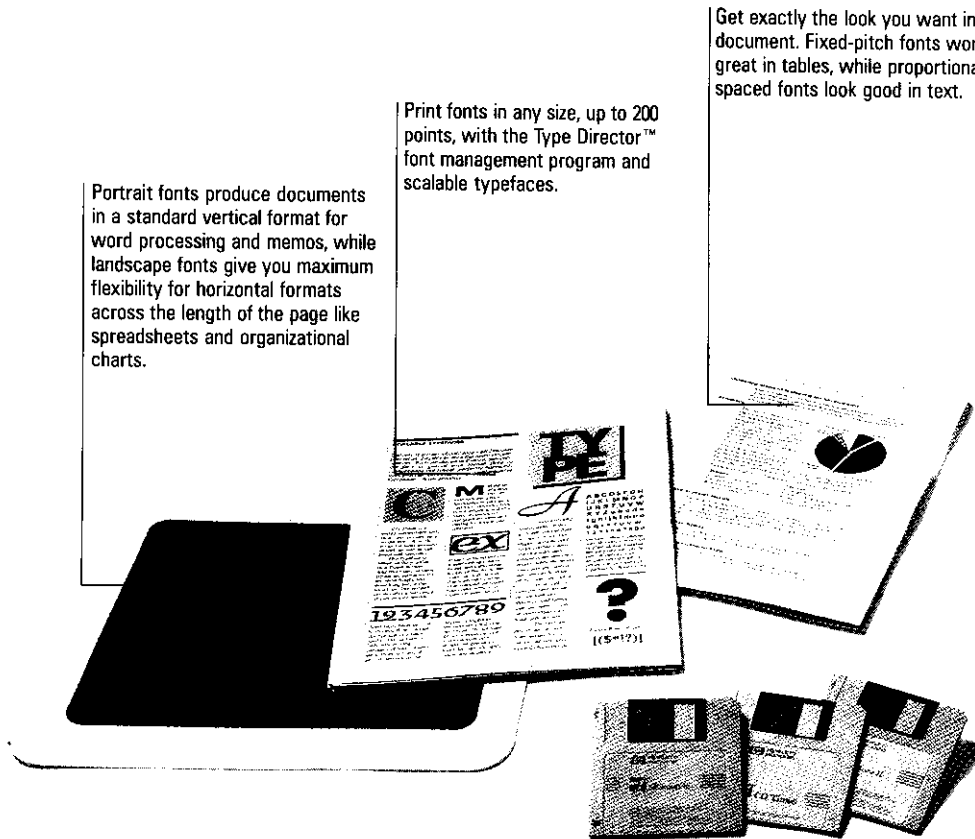

You've spent hours researching, writing, and compiling information for that all-important report. Don't compromise on your presentation! HP's fonts and type transform ordinary reports—giving them a more professional look. So your documents will be eye appealing and more readily accepted.

Our diverse family of fonts and scalable typefaces can handle a wide range of applications—so you end up with exactly what you need.

Portrait fonts produce documents in a standard vertical format for word processing and memos, while landscape fonts give you maximum flexibility for horizontal formats across the length of the page like spreadsheets and organizational charts.

Print fonts in any size, up to 200 points, with the Type Director™ font management program and scalable typefaces.

Get exactly the look you want in a document. Fixed-pitch fonts work great in tables, while proportionally spaced fonts look good in text.

Understand the difference between fonts and scalable typefaces.

Font: a complete set of letters, numbers, and symbols of a specific *typeface design*, which are the same *size, treatment, pitch, and orientation*.

Scalable typeface products: each HP typeface product contains master typefaces. Using the Type Director program, you can scale a typeface up or down to create your own fonts of specific point sizes. The fonts can then be sent from your PC to your HP LaserJet printer. (Turn to page 15 to learn more about scalable typefaces.)

Typeface design: the particular design or style of the characters and symbols, such as CG Times or Courier.

Point size: a measure of the height of the characters.

Treatment: the variations of a typeface design, such as **bold**, *italic*, or **bold italic**.

Orientation: the direction of the type across the page. Portrait fonts print across the width of the page for word processing, reports, and other vertical documents. Landscape fonts print horizontally across the page for documents requiring several columns, like spreadsheets and organizational charts.

Pitch: the number of characters printed per horizontal inch in a fixed-pitch font.

Symbol set: the specific alphabetic, numeric, punctuation, and special symbols contained in a font.

Compatibility: a font's ability to work with your computer software. Check your software manual, or speak with your software manufacturer.

Choose the fonts that look best for your work.

Find the font that fits your needs with application-specific font cartridges. Hewlett-Packard has grouped popular fonts into eleven font cartridges to meet a wide range of word processing and other office needs.

WordPerfect® and Microsoft® font cartridges are ideal for general office needs such as word processing and spreadsheet work.

**WordPerfect
Font Cartridge**
C2053A #C01

Get 18 proportional fonts for text documents and desktop publishing. **CG Times** is ideal for reports, proposals, or letters. Different treatments and point sizes let you *italicize*, make **bold** statements, and create footnotes or captions.

Univers® comes in large-size fonts for creating title pages, headlines, and overhead presentations. The DeskTop symbol set in all 18 fonts includes characters for international correspondence.

Portrait*	Pitch	Point
CG Times	Prop	6, 8, 10, 12, 14
CG Times Bold	Prop	8, 10, 12, 14, 18, 24
<i>CG Times Italic</i>	Prop	8, 10, 12, 14
Univers	Prop	14, 18, 24

**Microsoft Font
Cartridge**
C2053A #C02

Give documents in Microsoft Word®, Excel®, and Windows® a professional look with a selection of proportionally spaced fonts.

TmsRmn says "professional quality" in reports, propo and letters—any document with a lot of text. Use **Helv** to achieve highly legible subheads and text. It gives cover sheets and title pages a solid, no-nonsense look, without sacrificing readability.

Portrait*	Pitch	Point
TmsRmn	Prop	8, 10, 12
TmsRmn bold	Prop	10, 12, 14
<i>TmsRmn italic</i>	Prop	10, 12

Helv bold	Prop	10, 12, 14
<i>Helv italic</i>	Prop	10, 12
Portrait & Landscape	Pitch	Point
Line Printer	16.66	8.5

*Landscape available in HP LaserJet printer models which can automatically rotate fonts.

Note: Documents printed with TmsRmn and Helv fonts on other HP LaserJet printer font cartridges may format differently when printed with TmsRmn and Helv fonts found on the Microsoft cartridge.

sent your best appearance.

**Persuasive Presentations
Font Cartridge**
C2053A #C04

Persuasive Presentations has a selection of typeface designs for creating presentations with impact. **Serifa**[®] is a black, 24-point, serif typeface for title blocks and introduction copy.

For a clean, bold, sans serif book, try **Presentation** fixed-pitch fonts. Several sizes let you create outlines, easy-to-read transparencies, and tabular documents. Or use **Helv Outline** to emphasize bullet points one at a time. **Letter Gothic** is included for a clean, typewritten look, along with Line Draw and PC Line symbol sets for borders, shading, and bullet points.

Portrait & Landscape	Pitch	Point
Letter Gothic	10	14
PRESENTATION	10, 8.1, 6.5, 5.7	14, 16, 18, 24
Helv Outline	Prop	24
Serifa	Prop	24

Portrait & Landscape	Pitch	Point
Line Draw	10	14
PC Line	10	14

**Global Text
Font Cartridge**
C2053A #C08

Global Text gives you a selection of proportional, publication-quality fonts. **CG Century Schoolbook** is a popular design well known for its versatility. Use it for correspondence, memos, proposals—all your important business documents.

CG Triumvirate[™] is a clean, uncluttered, sans serif typeface design. It's perfect for cover sheets, title pages, headings—anything you want to make stand out.

Global text also includes international characters and symbols so you can communicate in many languages. Five symbol sets give you accents such as acutes (ó), umlauts (ë), tildes (ñ), and other diacritical marks. Monetary and legal symbols are also included.

Portrait & Landscape	Pitch	Point
CG Century Schoolbook	Prop	8, 10
CG Century Schoolbook Bold	Prop	10
<i>CG Century Schoolbook Italic</i>	Prop	10
CG Triumvirate	Prop	10
CG Triumvirate Bold	Prop	14

Present your complex information clearly.

**TextEquations
Font Cartridge**
C2053A #C07

TextEquations is perfect for creating technical documents that look professionally published. Use proportionally spaced **CG Times** for long text and **Prestige Elite** for the clean, practical look of fixed-pitch fonts. Specialized math and scientific symbols let you use characters like square root ($\sqrt{\quad}$), empty set (\emptyset), and pi (π). TextEquations comes with accents such as acutes (\acute{o}) and umlauts (\ddot{e}), plus symbols like ¶ , $\text{\$}$, TM , $\text{\textcircled{C}}$, $\text{\textcircled{R}}$, and more.

Portrait*	Pitch	Point

<i>CG Times Italic</i>	Prop	10

**Polished Worksheets
Font Cartridge**
C2053A #C03

Create clean, readable spreadsheets, database, and word processing documents with the practical fonts in Polished Worksheets.

Prestige Elite and **Letter Gothic** are fixed-pitch type writer fonts for a crisp, typewritten look in reports, letters, and lists. **Presentation** comes in a larger point size, making it particularly useful for headlines and title blocks. This bold, sans serif, fixed-pitch design is great for creating easy-to-read transparencies.

Fixed-pitch spacing is handy for aligning columns to create tables, financial calendars, and schedules.

Portrait & Landscape	Pitch	Point
Prestige Elite	16.66, 12	7, 10
Prestige Elite bold	12	10
<i>Prestige Elite italic</i>	12	10

*Landscape available in HP LaserJet printer models which can automatically rotate fonts.

Specialized fonts for forms and inventory control.

**Forms Etc.
Font Cartridge**
C2053A #C05

Create and update your business forms with your forms creation software and the Forms Etc. font cartridge.

Univers® and display **Helv Condensed Black** fonts are great for text, large titles, and numbers in your forms. Create boxes, borders, rows, and columns with **Tax Line Draw**. And prepare forms that can be read by optical character recognition devices with the **OCR-A** font.

Portrait & Landscape	Pitch	Point

Code 3 of 9	8.1, 4.6	12
Portrait	Pitch	Point
EAN/UPC 10mil (Medium)	Prop	12
EAN/UPC 13mil (Bold)	Prop	12
Portrait & Landscape	Pitch	Point
USPS Bar Code	Prop	12

Note: Extensive testing has been done on these bar code and OCR fonts; however, HP cannot warrant that the bar codes and OCR characters are readable with all bar code or OCR reading devices.

A "power package" for word processing & spreadsheets.

**ProCollection
Font Cartridge**
92286PC

With just one ProCollection cartridge, you get sixty-five fonts—enabling you to utilize a wide range of word processing and spreadsheet software programs. This cartridge contains all HP fixed-pitch fonts like **Letter Gothic** and **Prestige Elite**, plus proportional **TmsRmn** and **Helv** fonts. Using fonts in the landscape format allow you to print spreadsheets or tables of data horizontally across the page. And the compact Letter Gothic fonts (27.27 cpi and 18.75 cpi) help you present a lot of numbers and data without giving up readability. The ASCII symbol set includes characters and symbols needed for printing business correspondence. For contracts and other legal documents, the Legal symbol set adds trademark, copyright, and other useful symbols.

Portrait*	Pitch	Point
Helv	Prop	8, 10, 12
Helv bold	Prop	10, 12
<i>Helv italic</i>	Prop	10, 12
Portrait & Landscape	Pitch	Point

<i>Courier italic</i>	12, 10	10, 12
Prestige Elite	16.66, 12	7, 10
Prestige Elite bold	12	10
<i>Prestige Elite italic</i>	12	10

*Landscape available in HP LaserJet printer models which can automatically rotate fonts.

Note: Documents printed with TmsRmn and Helv fonts on older HP LaserJet font cartridges (such as 92286B or 92286F) may format differently when printed with the TmsRmn and Helv fonts found on the ProCollection cartridge.

Note: The ProCollection font cartridge works with all HP LaserJet printer models.

Print it in any language.

**International Collection
Font Cartridge**
922861C

The International Collection font cartridge provides a full complement of popular typeface designs and sizes for general word processing and spreadsheet applications in most Western European languages. This cartridge features both fixed-pitch and proportional fonts in very small sizes for dense spreadsheets to very large fonts for headlines and simple presentations.

The cartridge allows access to the Roman-8, PC-8, PC-8 D/N, and PC-850 symbol sets when used with a HP LaserJet Series II printer. When using the HP LaserJet III, IID, and IIP printers, the ECMA-94 Latin 1 and DeskTop symbol sets are also available.

Portrait**	Pitch	Point
Univers Medium	Prop	6, 8, 10, 12
Univers Bold	Prop	8, 10, 12, 14
<i>Univers Italic</i>	Prop	10, 12
CG Times	Prop	8, 10, 12

Prestige Elite	16.66, 12	7, 10
Prestige Elite bold	12	10
<i>Prestige Elite italic</i>	12	10
<i>Courier italic</i>	10	12

**When using the HP LaserJet III, IID, and IIP printers, the ECMA-94 Latin 1 and DeskTop symbol sets are also available.

**Landscape available in HP LaserJet printer models which can automatically rotate fonts.

The affordable starter package.

**Great Start
Font Cartridge**
C2055A #C01

Great Start is the most affordable HP font cartridge. It was designed to help new HP LaserJet printer users start printing quality documents.

CG Times is an attractive, versatile typeface design for letters, reports, and proposals. **Letter Gothic** gives documents an uncluttered, typewritten look. Small point sizes let you pack a lot of information into small spaces without sacrificing legibility.

Great Start supports legal documents with symbols like ¶, §, ©, ™, plus international communications with characters like ó, ë, and Ÿ.

Portrait*	Pitch	Point
CG Times	Prop	11
CG Times bold	Prop	11
CG Times italic	Prop	11
Letter Gothic	27,27, 12	3,6, 12
Letter Gothic bold	12	12
Letter Gothic italic	12	12

*Landscape available in HP LaserJet printer models which can automatically rotate fonts.

Fonts on floppy disks.

HP also offers fonts on floppy disks. These fonts come in pre-set sizes and are not scalable. All fonts are supplied in both portrait and landscape orientations.

33412DA	Presentation/Letter Gothic —5¼-in. disk. Includes Presentation fonts in sizes from 14- to 30-points, and Letter Gothic fonts. Supports many Western European languages, as well as legal, math, and line drawing applications.
33412DC	Presentation/Letter Gothic —5¼-in. disk. Similar to 33412DA, but adds 36- and 48-pt. Presentation fonts; symbols for IBM PC screen compatibility; and additional symbol sets.
33413DC	Presentation/Letter Gothic —3½-in. disk. Same as 33412DC on 3½-in. disk.
33412EA	Prestige Elite Family —5¼-in. disk. Offers Prestige Elite fonts in 16 and 12 cpi sizes. Symbol sets support many Western European languages, plus legal and math applications.
33412AG	Helv Headlines —5¼-in. disk. Supports most Western European languages with 14- to 48-pt. fonts in Helv Black (Outline, Condensed, and Condensed Italic) and Serifa typeface designs.

Make the exact font size you need.

Premier Collection with Type Director (version 2.0)

C2054B #ABA (5¼-in. disks)

C2052B #ABA (3½-in. disks)

The Type Director program scales
typefaces to the size you need.

Now a complete range of font sizes is at your fingertips—all on your personal computer's hard disk. With HP's **Premier Collection** (which includes 12 scalable typefaces and the **Type Director** font management program), you can scale typefaces up or down to create anything from tiny 4-point footnotes, to massive 200-point headlines.

The Type Director program is menu-driven and mouse-based for fast, easy control of typeface scaling and font downloading. You can also use it to manage your disk-based "soft" fonts.

You get more efficient use of your printer memory, too: the Type Director program tells you how much room you'll need before you download fonts. With it, you can also create abbreviated symbol sets so that large fonts don't take up more memory than necessary. The Type Director program also saves your setups from one session to the next.

The Type Director program creates screen fonts which allow your document to appear on-screen in the actual font (typeface design and size) that you selected. So what you see is what you'll get.

Screen fonts are supported by software programs with graphical user interfaces—like Aldus PageMaker®, versions 1.0A or 3.01 (running under MS Windows®, version 2.03 or later), or Xerox Ventura Publisher® (version 2.0). For programs without a graphical interface, the Type Director program will still create printer fonts. These programs include Microsoft Word 5.0 or later and WordPerfect 5.0 or later.

LaserJet III owners need Type Director 2.0. All typeface scaling occurs inside the LaserJet III printer, but, you still benefit from Type Director 2.0's powerful font management features. The program provides the capability to install and download additional typefaces and create matching screen fonts.

Design away ... with scalable typeface collections!

C2054B #ABA Premier Collection—5¼-inch disk format.

Includes: Type Director font management program, four CG Times typefaces, four Univers 1 typefaces, Dom Casual, Uncial, Park Avenue, and Brush typefaces.

C2052B #ABA Premier Collection—3½-inch disk format.

C2050A #D80 Distinctive Documents I—5¼-inch and 3½-inch disk formats.

Expand your typeface design library and give your letters a whole new look! This scalable typeface collection includes the Univers Condensed, ITC Souvenir, and CG Century Schoolbook typeface products. Use these distinctive typefaces for correspondence, manuals, newsletters, catalogs, and reports.

C2050A #D81 Compelling Publications I—5¼-inch and 3½-inch disk formats.

This is a must for desktop publishers! A step above Distinctive Documents I, Compelling Publications I meets a wider variety of office printing needs, allowing you to create eye-catching brochures, flyers, certificates, coupons, charts, and tables. This scalable typeface collection includes the Antique Olive, CG Palacio, and Stymie typeface products.

C2050A #D82 Brilliant Presentations I—5¼-inch and 3½-inch disk formats.

Present easy-to-read documents with a distinct "business" look with Brilliant Presentations I and its collection of ITC Benguiat, ITC Bookman, and Shannon typefaces. These versatile typefaces work well for everyday memos and letters while giving a "just right" appearance to presentations and reports.

C2050A #D84 Decorative Words I—5¼-inch and 3½-inch disk formats.

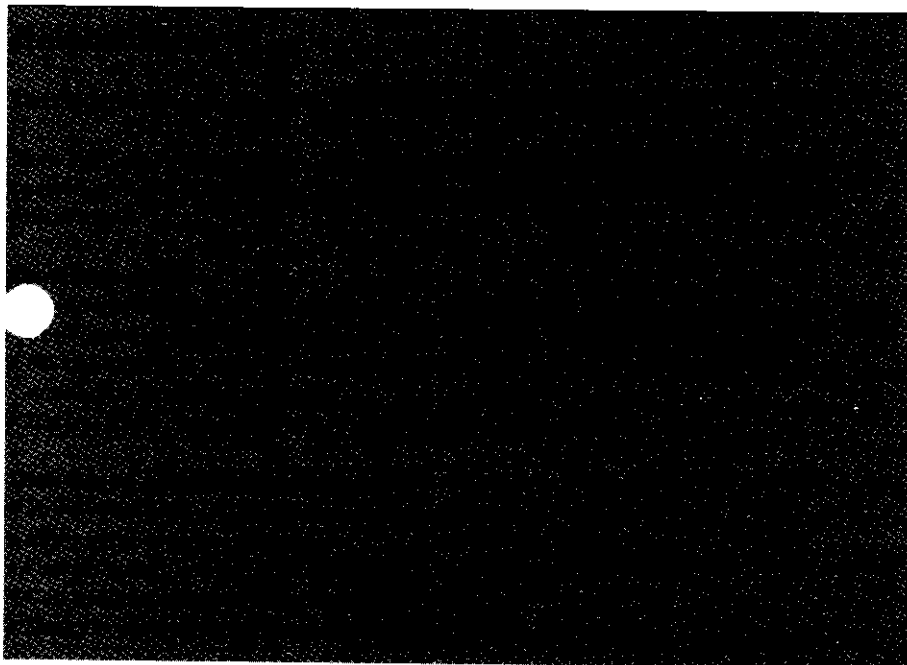

Make a statement with these typefaces! This scalable typeface collection includes the Brush, Dom Casual, Park Avenue, Uncial, Revue light, Revue shadow, Cooper Black, and University Roman scalable typefaces, plus the ITC Zapf Dingbats typeface product. These novelty typefaces provide pizzazz for signs, handbills, menus—or an attention getting office document.

Scalable type in a cartridge.

C2050A #C90 Distinctive Documents & Compelling Publications I

This scalable typeface cartridge collection contains the Antique Olive, CG Century Schoolbook, CG Palacio, ITC Souvenir, ITC Zapf Dingbats, Stymie, and Univers Condensed typeface products. A mixture of distinct typefaces that work great for general office documents, correspondence, manuals, newsletters, catalogs, and reports while providing versatility to your library for presentations with style.

Note: Scalable typeface cartridges support the HP LaserJet III, only.

Choose from individual scalable typefaces.

C2051A #ABA Type Director program including: CG Times and Univers bold.

C2050A #D08 ITC Avant Garde Gothic Book including: *Oblique*, **Bold**, **Bold Oblique**.

C2050A #D13 ITC Benguiat Book including: *Book Italic*, **Bold**, **Bold Italic**.

C2050A #D15 ITC Bookman Light including: *light italic*, **demi**, **demi italic**.

C2050A #D06 CG Century Schoolbook including: *italic*, **bold**, **bold italic**.

C2050A #D03 Decorative 1 including: *Break*, *Dem Casual*, *Park Avenue*, **Unzial**.

C2050A #D09 Futura II including: *italic*, **bold**, **bold italic**.

C2050A #D14 Garamond Antiqua including: *kursiv*, **halbfett**, *kursiv halbfett*.

C2050A #D07 ITC Lubalin Graph Book including: *book oblique*, **demi**, **demi oblique**.

C2050A #D11 Microstyle including: **bold**, extended, **bold extended**.

C2050A #D10 ITC Souvenir Light including: *light italic*, **demi**, **demi italic**.

C2050A #D01 CG Times including: *italic*, **bold**, **bold italic**.

C2050A #D04 CG Triumvirate including: *italic*, **bold**, **bold italic**.

C2050A #D02 Univers including: *italic*, **bold**, **bold italic**.

C2050A #D12 Univers Condensed including: *italic*, **bold**, **bold italic**.

C2050A #D05 ITC Zapf Dingbats including:  and more.

C2050A #D17 CG Palacio including: *Italic*, **Bold**, *Bold Italic*.

C2050A #D16 CG Triumvirate Condensed including : *Italic*, **Bold**, *Bold Italic*.

C2050A #D20 CG Omega including: *Italic*, **Bold**, *Bold Italic*.

C2050A #D21 Decorative 2 including: **Cooper Black**, *Revue Light*, *Revue Shadow*,
University Roman.

C2050A #D22 Antique Olive including: *italic*, **bold**, *bold italic*.

C2050A #D23 Stymie including: *italic*, **bold**, *bold italic*.

C2050A #D18 Courier including: *italic*, **bold**, *bold italic*.

C2050A #D24 CG Bodoni Book including: *book italic*, **bold**, *bold italic*.

C2050A #D25 Shannon Book including: *italic*, **bold**, *extrabold*.

Note: All products include 3½- and 5¼-inch disk formats (720- and 360Kbytes respectively).

Add extra memory for full-page, high-resolution graphics

For your HP LaserJet III and IIP printers, you can easily install 1Mbyte or 2Mbyte memory boards in one or both of your printer's available memory slots. The two memory slots allow you to add up to 4Mbytes of memory, enabling you to perform more sophisticated jobs by downloading more fonts, forms, macros, and graphics to the printer.

Note: These memory boards work only with the HP LaserJet III and IIP printers.

33474B 1Mbyte memory board for HP LaserJet III and IIP printers.

33475B 2Mbyte memory board for HP LaserJet III and IIP printers.

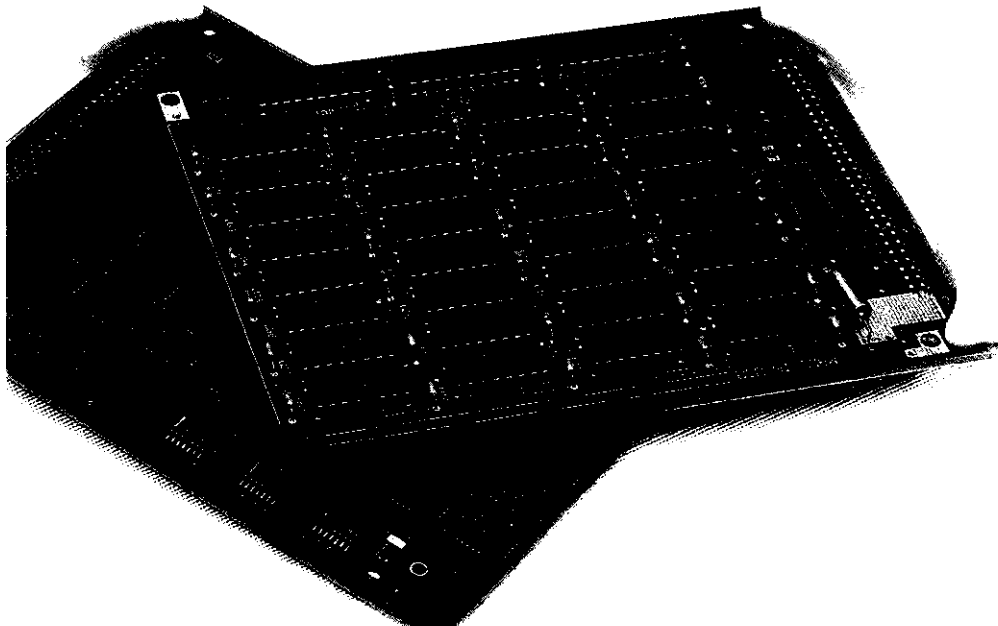

Plug a 1-, 2-, or 4Mbyte memory board into your HP LaserJet Series II or IID printer, and print full-page, 300 × 300 dot-per-inch graphics—a must for downloading more fonts, forms, and macros, or when printing high-resolution charts, presentations, and diagrams for desktop publishing applications.

Note: HP LaserJet Series II and IID printer users—consider future memory needs carefully before purchasing, as the printer has only one memory board slot.

33443B 1Mbyte memory board is perfect for the single user in a small office, wanting to print full-page, 300 dpi graphics.

33444B 2Mbyte memory board is excellent for the medium-sized office with several users and for sophisticated single users (also for doing two-sided printing on the HP LaserJet IID printer).

33445B 4Mbyte memory board is great for several sophisticated users sharing a single printer (also for doing two-sided printing of more complex pages on the HP LaserJet IID printer).

stScript for your HP LaserJet printer.

Your HP LaserJet III, IID, and IIP printers can now print PostScript with the accessory PostScript printer cartridge from Hewlett-Packard. The cartridge contains the authentic Adobe® PostScript page-description language and 35 licensed scalable typefaces. It also is compatible with over 500 accessory typefaces in the Adobe Type Library.

Like HP font and typeface cartridges, the format is easy to install and makes the product accessible by several users sharing a printer. The cartridge can also be shared between printers.

Use the PostScript printer cartridge for printing final copies of your documents, or for proofing files that will be output on high-resolution typesetting or 35-mm slide-making equipment. The cartridge is also compatible with alternative computing platforms such as UNIX workstations and, when combined with HP's Appletalk interface, the Apple Macintosh computer.

33439P

PostScript® printer cartridge for the HP LaserJet III, IID, and IIP printers.

Note: A minimum of 2Mbytes of additional printer memory is required to use the PostScript printer cartridge. For HP LaserJet IID printer users, 4Mbytes are required for duplex (two-sided) printing.

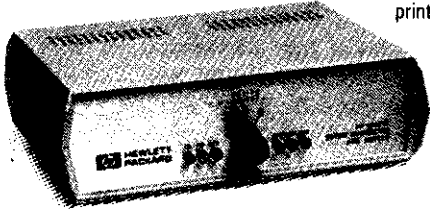

Protect RS-232 peripherals while you share them!

Because of their unique surge suppression capabilities, our ABC switches are the only products of their kind approved for use with HP LaserJet printers. Now you can switch freely between printers, plotters, and modems without the risk of sending damaging surges and spikes to your peripherals.

92205E

ABC switch with built-in surge protection.

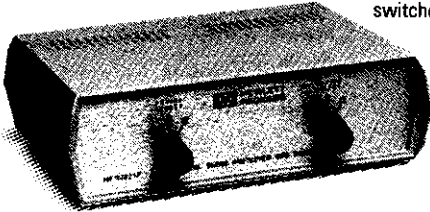

This ABC switch lets three PCs share the same printer or plotter, or can be configured to allow one PC to access three peripherals, such as a printer, plotter, and modem.

92205F

Dual ABC switch with built-in surge protection.

This switch lets three PCs share two peripherals, or allows two PCs to share up to three peripherals. Also, it can be used as two separate ABC switches.

Make all the right connections with HP printer cables.

HP offers a variety of RS-232 and Centronics extension cables that allow you to make safe, direct connections between your computer and your HP LaserJet printer.

92221P	RS-232 printer cable, connects HP PORTABLE and Portable PLUS computers to all HP LaserJet printers.	1.5m (5.0 ft.)
17255D	RS-232 printer cable, connects IBM PC, PC/XT, Compaq, and AT&T PC 6300 computers to all HP LaserJet printers.	1.2m (3.9 ft.)
92219J	RS-232 printer cable, connects IBM PC, PC/XT, Compaq, and AT&T PC 6300 computers to all HP LaserJet printers.	5.0m (16.7 ft.)
17355M	RS-232 printer cable, connects Apple IIe computers to all HP LaserJet printers.	3.0m (9.9 ft.)
92284A	Centronics (parallel) printer cable, connects IBM PS/2, PC, PC/XT, Compaq, and AT&T PC 6300 computers to all desktop HP LaserJet printers.	2.0m (6.6 ft.)

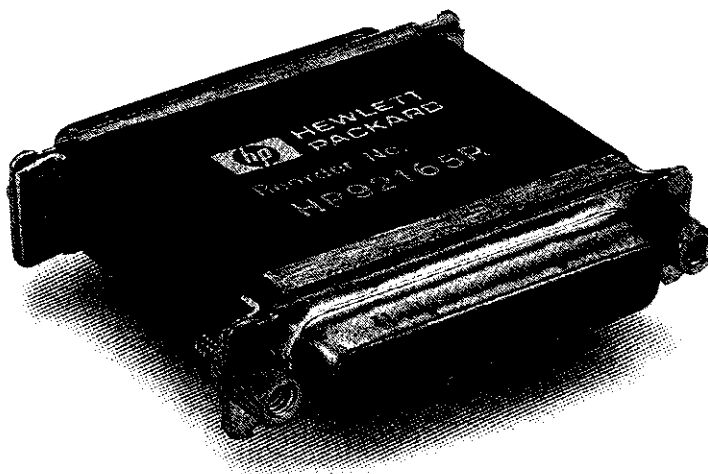

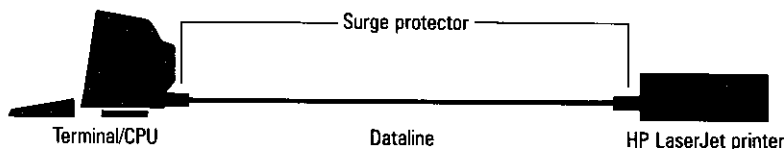

Maximum surge protection for RS-232 data ports.

Protect your valuable data and HP LaserJet printer. Install a pair of HP surge protectors—one at each end of a link—to shield data communication ports from burnout.

Why? Because when a fluorescent light switches on, a motor starts, or lightning strikes, electrical surges hit the data lines of your RS-232 cables and HP LaserJet printer.

Overvoltage surge or static spike cause slow deterioration to the communications interface of your computers and printers. The result can be scrambled data transmission or total failure in communication.

The cost of protection is small compared to expensive repairs, particularly if you have a RS-232 cable longer than 50 feet.* For a minimal investment, you can safeguard your sensitive HP LaserJet printers and eliminate worry over excessive downtime.

92165R Surge protector

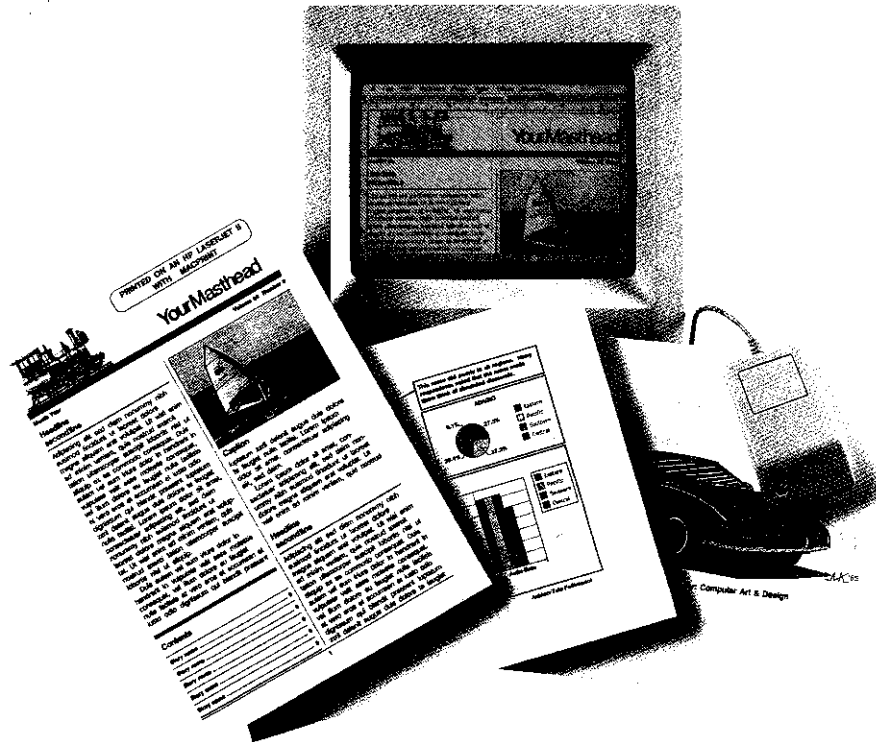

*HP warranties and/or service contracts do not cover damage if the RS-232 cable exceeds the 50-foot limit of the RS-232 standard.

Let your Apple talk with your LaserJet!

Now you can have the best of both worlds! Use your Macintosh to create high-resolution graphics—printed with the superior quality of a HP LaserJet printer. How? With MacPrint®... the software that makes HP LaserJet Series II family of printers act like Macintosh-style printers.

MacPrint is operated with standard Macintosh printer dialog boxes, so installation and operation are a breeze. With MacPrint software, you can even share your HP LaserJet printer with IBM-compatible PCs on a network.

MacPrint gives you access to all the internal standard and cartridge fonts available for your HP LaserJet printer—including the multi-font ProCollection font cartridge. MacPrint also includes four Compugraphic screen fonts, so the image you see on screen will exactly match the printed page. With one touch of the print button, you can have complete support to create beautiful 300 dot-per-inch graphics. And, because you're using HP PCL instead of PostScript, you can print text output up to three times faster than an Apple LaserWriter!

35177A

MacPrint (includes printer cable).

asily manage fonts and printing on your LaserJet.

LaserControl® gives you control of your HP LaserJet printer's full range of capabilities. A single stroke of your PC keyboard activates a pop-up menu, allowing you to print on envelopes, download fonts, and access cartridge and soft fonts for word processing software.

You can install LaserControl on your HP Vectra PC or other IBM-PC compatible in mere minutes.

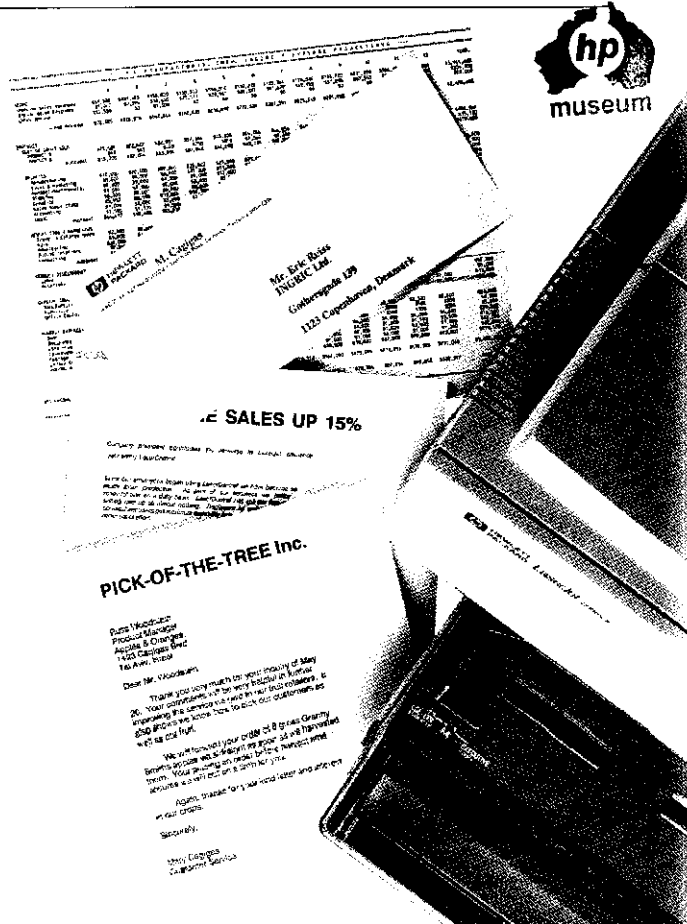

And there's no need to upgrade your existing software with a new printer driver for your HP LaserJet printer. Since LaserControl has a built-in ability to emulate Epson, NEC, Qume, or IBM printers, you can easily "pop-up" LaserControl for your legal envelope tray (or even two-sided printing with the HP LaserJet IID printer).

LaserControl works with Lotus® 1-2-3®, DisplayWrite®, and other popular software. Available in 5¼-in. disks.

35190J

LaserControl

The LaserControl software package allows you to take full advantage of your HP LaserJet printer's capabilities.

Get crisp "plots" quickly.

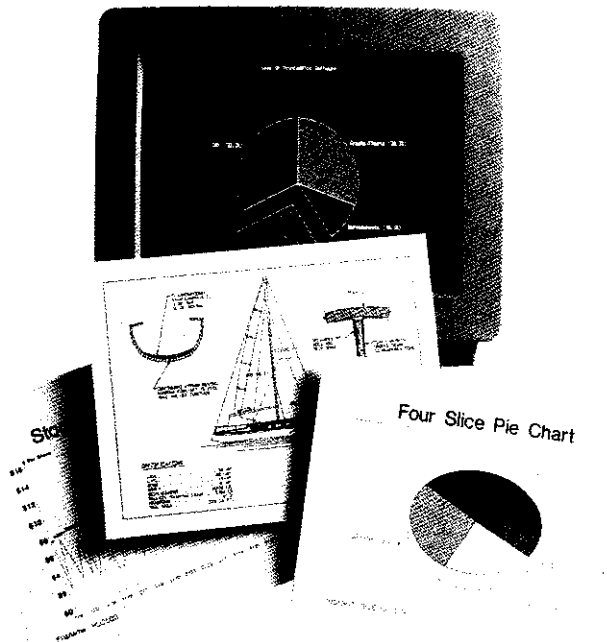

Take advantage of a world of plotter-oriented engineering and business-graphics software applications with PrintAPlot®.

This easy-to-use software lets the family of HP LaserJet printers produce LaserJet-resolution plots. How? By enabling your HP LaserJet printer to emulate the HP 7475A, 7470A, or ColorPro Plotters.

PrintAPlot can output graphic after graphic while you're at work or on a break. And PrintAPlot translates color plotter lines into 72 combinations of line width and gray texture. So your "color" graphics will photocopy into black and white. You can also make black and white graphics in any dimension you need—the "tiling" option allows you to output 8½ × 11 inch segments of graphic output, which can then be pieced together into a wall-size poster.

What's more, PrintAPlot employs a unique data compression routine that lets you print faster and get higher-resolution graphics without upgrading your printer's memory.

Available for the HP Vectra PC and other IBM PC compatibles. Supported by Insight Development Corporation.

minate typing and storing business forms.

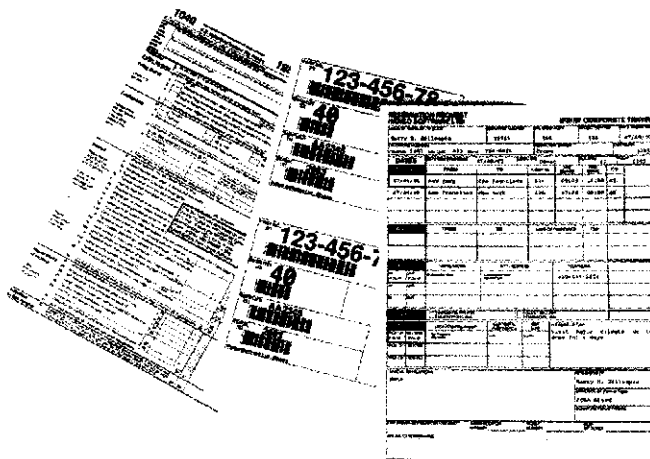

Are you surrounded by PCs and printers, but still coping with the tedious, error-prone task of typing pre-printed business forms?

JetForm software lets you design and fill in your business forms or labels with your HP LaserJet printer. Simply store your blank forms electronically. Then complete them when needed—directly from your PC!

With JetForm software, you can:

- Develop or customize your own forms, on-screen without the expense of typesetting.
- Eliminate pre-printed form storage by generating forms as you need them.
- Reduce errors and repetition, because you can fill out forms from your keyboard by merging data directly from your database files.
- Make multiple copies or correct errors right on your PC screen—no more messy carbon paper or correction fluid.

JetForm software system comes in two parts—JetForm Design and JetForm Print. JetForm Design contains the electronic forms features you need to develop forms, including form design, HP ScanJet compatibility, screen form fill-in, file merge, and run-time version of MS Windows®. JetForm Print is a subset of JetForm Design with features necessary to fill-in forms only. The IBM PC/AT version includes a run-time version of MS Windows. The IBM PC/XT version is written without MS Windows. JetForm can be used with all HP LaserJet Series II and III families of printers.

35188E JetForm Design for HP Vectra PCs and other IBM PC/AT compatibles with mouse.

35188G JetForm Print Windows for HP Vectra PCs and other IBM PC/AT compatibles.

35188H JetForm Print for IBM PC/XT and compatibles.

The easy way to create professional graphics and charts.

The Graphics Gallery collection teamed up with your HP LaserJet printer is a match made in heaven. Instantly, you can create dynamic drawings and data-driven charts for powerful business graphics that get noticed!

No task is too big for Graphics Gallery—whether it's creating graphics to supplement a desktop publishing program or integrating with text, Graphics Gallery can do it all and do it fast.

Zoom, rotate, skew, or align your text and line drawings—whatever it takes to get your message across, Graphics Gallery has the features to make it happen in black and white or gray scale.

Graphics Gallery lets you directly read in Lotus®, WKS®, or WK1® files using just one soft-key selection. You can also import ASCII text and export TIF and PCX formats. Graphics Gallery also supports the industry standard CGM (Computer Graphics Meta file) format for importing and exporting to other graphics programs. Graphics Gallery runs on all IBM PC compatibles.

ave your HP LaserJet IIP printer alone.

Here's the answer to "hands-off" printing on the HP LaserJet IIP printer. Print up to 300 sheets with no interruptions on your HP LaserJet IIP printer with our optional Lower Cassette. Used in conjunction with the built-in, 50-sheet Multi-Purpose tray, the optional Lower Cassette allows you to expand the printing capacity with one of four, 250-sheet trays.

The optional Lower Cassette also converts your HP LaserJet IIP printer into a dual-bin printer, giving you the flexibility to print letterhead from the Multi-Purpose tray and second sheets and memos from the optional Lower Cassette—without even touching the printer.

The optional Lower Cassette saves desk space, too! By attaching to the bottom of the printer, the optional Lower Cassette allows trays to slide flush underneath the printer. Standard jobs can be run with the Multi-Purpose tray closed, freeing up more desk space. For those special projects that require manual feeding of media (such as labels), the Multi-Purpose tray simply pulls down to open.

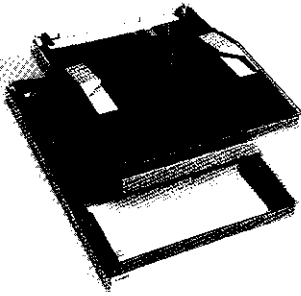

The optional Lower Cassette attaches easily to the bottom of your HP LaserJet IIP printer—allowing you to quickly expand your printer's capabilities.

33472A Optional Lower Cassette (includes letter-size paper tray).

33472AB Optional Lower Cassette (includes A4-size paper tray).

Change printer paper in a snap.

HP LaserJet printer paper trays let you switch color, size, or type of paper in mere moments! Keep extras close by. You'll be able to change from A4 to executive, letter to legal, or letterhead to plain paper, as easily as slipping out one tray and sliding in another. Extra trays also lessen unnecessary down-time in the unlikely event that a tray should become damaged. You'll work more quickly and efficiently than ever.

For HP LaserJet III printers:

92297B	U.S. letter-size paper tray.	Holds 200 sheets of 216 × 279mm (8.5 × 11 in.) paper.
92297C	U.S. legal-size paper tray.	Holds 200 sheets of 216 × 356mm (8.5 × 14 in.) paper.
92297D	Metric A4-size paper tray.	Holds 200 sheets of 210 × 297mm (8.3 × 11.7 in.) paper.
92297E	Executive-size paper tray.	Holds 100 sheets of 184 × 267mm (7.25 × 10.5 in.) paper.
92297R	Replacement top cover for 92297B/D/E paper trays.	
92297S	Replacement top cover for 92297C paper trays.	

For HP LaserJet Series II and IID printers:

92295B	U.S. letter-size paper tray.	Holds 200 sheets of 216 × 279mm (8.5 × 11 in.) paper.
92295C	U.S. legal-size paper tray.	Holds 200 sheets of 216 × 356mm (8.5 × 14 in.) paper.
92295D	Metric A4-size paper tray.	Holds 200 sheets of 210 × 297mm (8.3 × 11.7 in.) pa,
92295E	Executive-size paper tray.	Holds 100 sheets of 184 × 267mm (7.25 × 10.5 in.) paper.
92295R	Replacement top cover for 92295B/D/E paper trays.	
92295S	Replacement top cover for 92295C paper trays.	

For HP LaserJet IIP printers*:

92275B	U.S. letter-size paper tray.	Holds 250 sheets of 216 × 279mm (8.5 × 11 in.) paper.
92275C	U.S. legal-size paper tray.	Holds 250 sheets of 216 × 356mm (8.5 × 14 in.) paper.
92275D	Metric A4-size paper tray.	Holds 250 sheets of 210 × 297mm (8.3 × 11.7 in.) paper.
92275E	Executive-size paper tray.	Holds 250 sheets of 184 × 267mm (7.25 × 10.5 in.) paper.

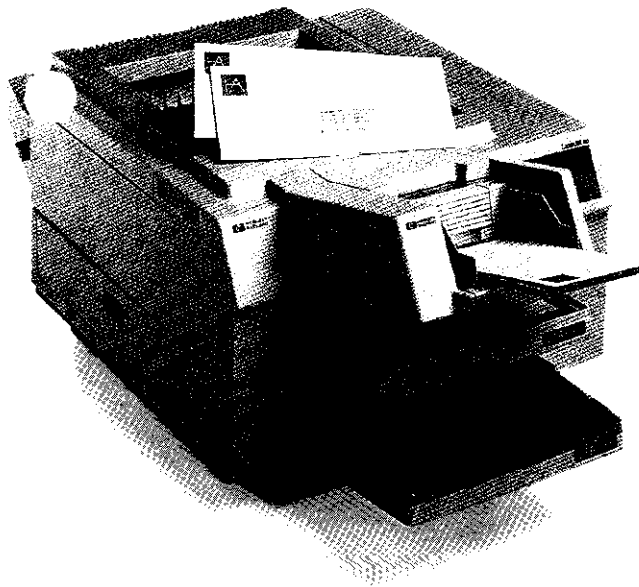

*Requires optional Lower Cassette (see page 29).

Note: HP LaserJet Series II and IID paper trays are interchangeable with paper trays for the HP LaserJet III but look substantially different.

Print up to 50 envelopes automatically!

Now you can print as many as 50 two-page letters—letterhead and a second page—plus matching envelopes, right on your HP LaserJet IID printer . . . quickly, easily, and electronically! That means no more switching from printer to typewriter to print envelopes. And no more entering mailing data twice, because this electronic envelope feeder works with the mail-merge function of most popular word processing applications. You no longer have to waste time collating your pages and envelopes—the printer and software automatically do it for you!

Imagine the time you'll save! This envelope feeder adds a third tray to your printer, so you won't have to waste time swapping paper trays or manually feeding envelopes. It plugs right into your printer, so set-up is easy, and works with most major word processing programs with envelope feeder drivers. It is perfect for handling business and letter-size envelopes as small as 86 × 178mm (3.4 × 7 in.), and as large as 188 × 267mm (7.4 × 10.5 in.).

Installing the envelope feeder on your HP LaserJet IID will allow you to print envelopes and letters simultaneously!

33457A

Envelope feeder for the HP LaserJet IID printer.

50 envelopes

Note: The electronic envelope feeder works only with the HP LaserJet IID printer.

Quality envelopes for your IIP printer.

You've gone to great lengths to make sure the presentation of your laser-printed letter is perfect. Why not carry that same concern for quality all the way to the envelope?

Thanks to our envelope tray designed especially for the HP LaserJet IIP printer, you can print envelopes that reflect the same high-class laser printing that's on your letter!

Used in conjunction with the optional Lower Cassette (see page 29), your HP LaserJet IIP printer can easily print up to 20 envelopes between refills.

When you load the Lower Cassette with envelopes and use the printer's standard Multi-Purpose tray (that holds 50 sheets of letter-size paper), you can print letters and their corresponding envelopes without ever touching the printer!

92275F

Envelope tray for the HP LaserJet IIP printer.

20 envelopes

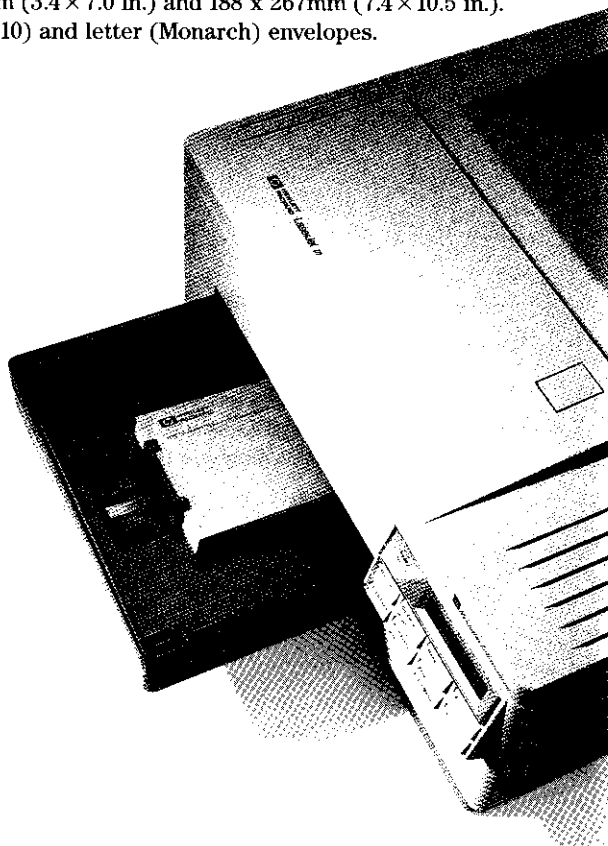

Note: Requires optional Lower Cassette (see page 29).

nt envelopes to match your letters!

Laser print directly on business or personal-sized envelopes with the HP LaserJet III, Series II, or IID printer envelope tray.

This tray lets you use your HP LaserJet printer to address envelopes, including those preprinted with logos and return addresses. It even lets you print your own logos and return addresses on envelopes, then print mailing addresses. And it works with most popular word processing software applications as well as LaserControl for printing envelopes while you're in other software applications (see page 25).

The envelope tray is perfect for moderate-volume mailings, holding a maximum of 15 envelopes sized between 86 × 178mm (3.4 × 7.0 in.) and 188 × 267mm (7.4 × 10.5 in.). This includes standard business (#10) and letter (Monarch) envelopes.

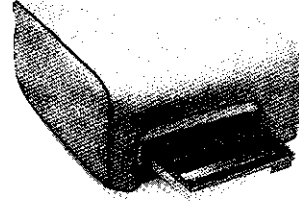

92297F	Envelope tray for the HP LaserJet III printer.	15 envelopes
92295F	Envelope tray for the HP LaserJet Series II and IID printers.	15 envelopes

Note: HP LaserJet Series II and IID envelope trays are interchangeable with envelope trays for the HP LaserJet III but look substantially different.

Note: Users may find the envelope tray has a slightly higher jam rate than cut-sheet paper trays. We recommend that you test the envelopes you'll be printing before purchasing large quantities.

Protect your HP LaserJet printer.

Shield your HP LaserJet printer from dust and spills with this 100 percent cotton dust cover. It's custom fitted for a professional look and durable enough to last for years. And because our dust cover is styled to complement your printer, it can enhance the appearance of your office as well.

92259V	Dust cover for the HP LaserJet III printer.
92259G	Dust cover for the HP LaserJet Series II and IID printers.
92259T	Dust cover for the HP LaserJet IIP printer.

Organize and store your HP LaserJet printer cartridges.

They're too valuable to be left out in the open. Stored in our HP LaserJet printer font organizer, your cartridge fonts can be easily found when you need them, or locked away in a desk drawer when you don't.

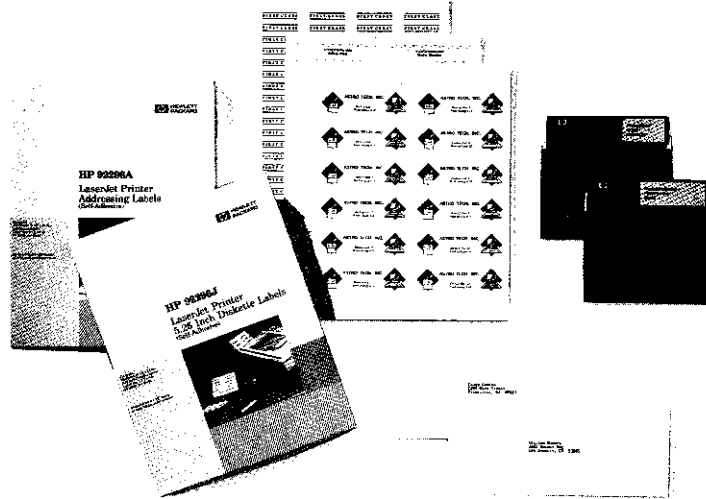

92285P Font organizer

Get the headache out of mass mailings!

Eliminate the time-consuming job of typing individual labels by using HP LaserJet label sheets. Specifically designed for use with all HP LaserJet printers, these labels speed production by eliminating the hand work.

Simply prepare your mailing list on a database or other label program to get the ball rolling. Then run multiple label sheets through your HP LaserJet printer. To repeat a mailing, you don't have to retype the list— simply edit and print a new batch!

HP LaserJet printer labels come in a variety of sizes to meet all your mailing needs—packages, file folders, envelopes, diskettes, and full sheet. Because they're designed exclusively for HP LaserJet printers, our labels always appear crisp and dark, and they don't fade. (Each box contains 100, 8½ × 11 inch sheets, except where noted.)

92296A	Addressing	1"	25/8"	30
92296B	Addressing	1 1/3"	4"	14
92296C	Addressing	1"	4"	20
92296D	Addressing/Shipping	2"	4"	10
92296E	Shipping	3 1/8"	4"	6
92296F	Return address	1/2"	1 3/4"	80
92296G	File folder	3/8"	3 1/16"	30
92296H*	3 1/2-in. diskette	2 3/4"	2 3/4"	9
92296J*	5 1/4-in. diskette	1 1/2"	4"	12
92296K	Full sheet poster	8 1/2"	11"	1

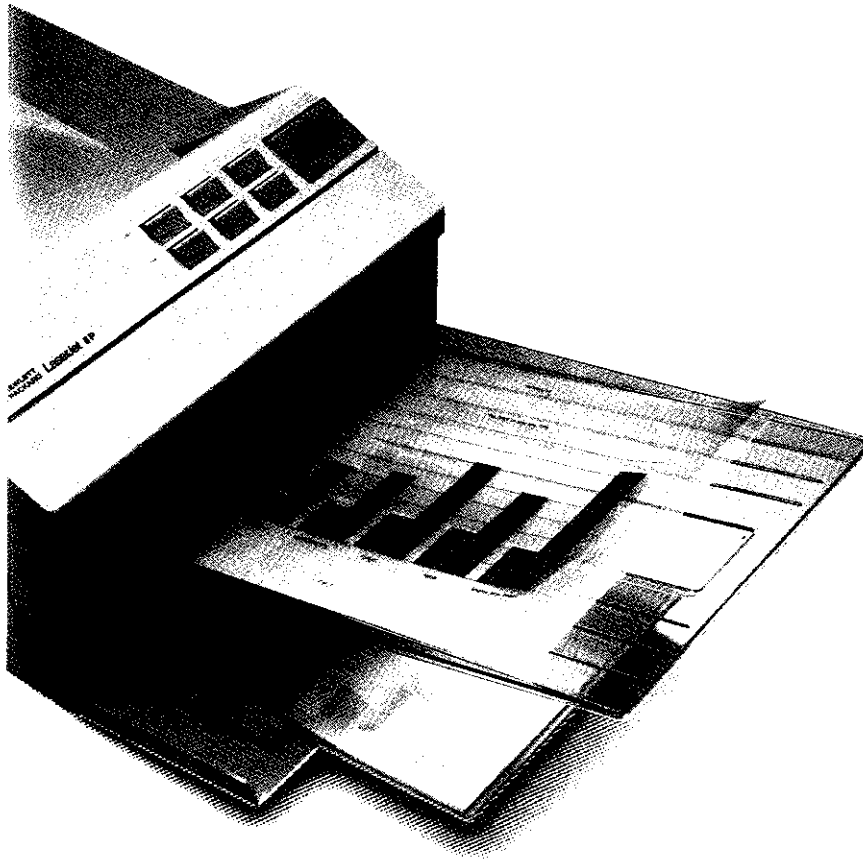

*Contains 75, 8½ × 11 inch sheets.

Create overhead transparencies—right on your LaserJe

Now you can produce transparencies directly from your PC and HP LaserJet printer, as easily as typing a memo!

With HP LaserJet printer film, words or graphics generated from your word processing, spreadsheet, or graphics applications are ready for overhead projection in seconds. You can even use large-sized HP LaserJet printer fonts to create attention-getting text.

This film was designed expressly for your HP LaserJet printer, so it won't jam, melt, or yellow. Available in 50-sheet boxes.

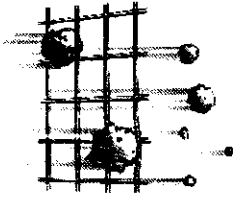

92296T HP LaserJet printer overhead transparency film, U.S. letter size 216 × 279mm (8.5 × 11 in.).

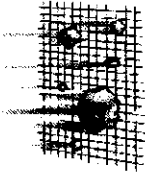

92296U HP LaserJet printer overhead transparency film, Metric A4 size, 210 × 297mm (8.3 × 11.7 in.).

Keep your HP LaserJet printer clean and dust free.

Why your office vac isn't enough

Ordinary vacuums allow particles smaller than 70 microns to escape back into the air you breathe.

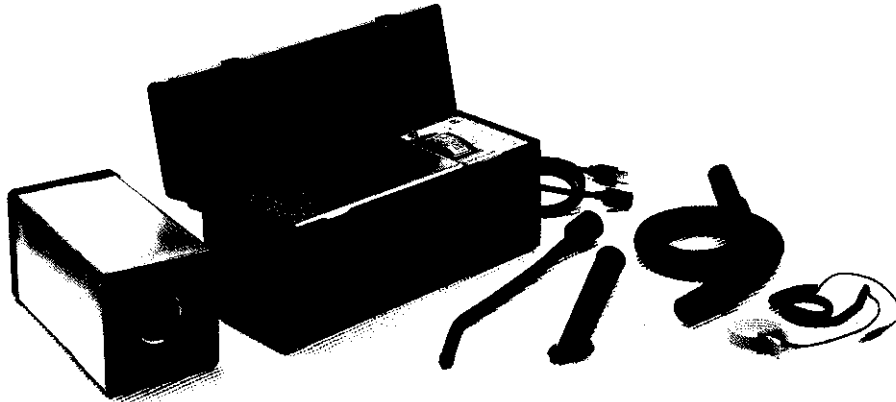

The HP PM Vacuum filter traps toner particles as fine as .3 microns—much, much smaller than your toner!

Avoid toner and dust-related printer problems by using this specially designed vacuum for your HP LaserJet printer!

This is no ordinary vacuum! No general-purpose vacuum seeks out, whisks away and—most important—traps tiny particles the way this one does. The vacuum's hose is "toner-proof"—it won't get stiff or sticky from toner, so there's no danger of toner escaping into the atmosphere.

The disposable filter is custom-made for toner pickup; it traps particles as small as .3 microns (toner measures 5 microns). When it's full, an indicator light tells you so. No guessing, and no messing with bags. An extra-long hose and thoughtful accessories like the rubber gooseneck that bends around corners, let you reach every nook and cranny without getting a speck of dust on yourself.

A static-draining wire and wrist strap protect your printer's sensitive circuits. And everything packs neatly in a carrying case not much bigger than a lunch box. UL/CSA listed.

92175V

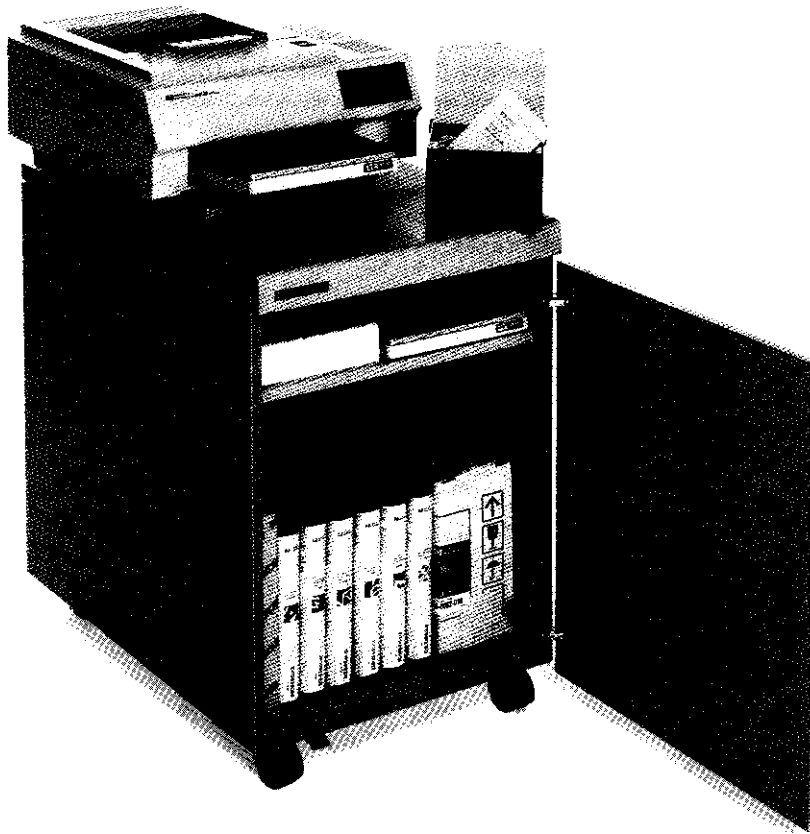

HP PM Vacuum

The cabinet that fills almost every laser printing need.

Here's an attractive stand for organizing your HP LaserJet printer and all of its supplies!

This roomy cabinet features a top shelf for fonts and manuals. The lower shelf has expansive room for months of daily printing supplies—including paper, paper trays, and toner cartridges. This versatile cabinet also has heavy-duty, lockable casters to allow mobility within the office.

Comes fully assembled.

92211D

Mobile printer cabinet

720H × 508W × 711Dmm
(28.3H × 20W × 28D in.)

Printer organizer for small spaces.

Our compact HP LaserJet printer stand and organizer conveniently positions your printer and supplies on a table or desktop. It's custom-designed for your printer's footprint, so it doesn't waste one inch of precious space.

And it stores your paper trays! Three slots underneath accommodate legal and regular size paper trays for easy access. Foam compartments keep up to four font cartridges and a half-dozen soft-fonts in place. Tough rubber molding on its edges protects your equipment when it's bumped and knocked. And the molding on the bottom minimizes skidding by creating additional friction.

Comes fully assembled.

A new standard in the workplace.

Create a more flexible workplace with our universal, "fits anywhere" support stand. Designed to adapt to almost any need, this furniture functions as a HP LaserJet printer stand, supplies station, and general accessories organizer. A special feature is an inside shelf that pulls out easily for use as an exterior paper tray—great for keeping work papers neatly stacked. You can use the inside of your stand to stock your daily supplies—reams of paper, a dozen toner cartridges, a hundred fonts, or any combination thereof.

Built to last, this stand has rubber padding inside to absorb vibrations that could be potentially damaging to your HP LaserJet printer. Self-locking casters add mobility.

Comes fully assembled.

92214P	Universal support stand	720H × 600W × 450Dmm (28.4H × 23.6W × 17.7D in.)
