HP OmniBook 425

Superportable PCs

Technology for Freedom - No other PCs are as ready to go and easy to use, right out of the box.

If you always wanted to take your PC when travelling, but wanted something light, small, and ready to work for as long as you are, the HP OmniBook 425 Superportable PCs might be just what you've been dreaming about.

*At 1.3 kg (3 lbs), they're the smallest notebook PCs available today with a full-size keyboard. And with up to nine hours of working power, Microsoft® rd and Excel built into ROM, and a pop-up mouse at hand at the touch of a button, they'll always be ready when you need them.*

You can have HP OmniBook convenience and still choose the MS-DOS® or Windows applications you need to carry with you.

You don't even need to close an application before switching off your HP OmniBook. Simply turn it off. When you switch back on again you're right back where you left off.

F1033A	HP OmniBook 425 Superportable PC - no mass storage
F1034A	HP OmniBook 425 Superportable PC - with 10-Mbyte* Flash Memory Card
F1036A	HP OmniBook 425 Superportable PC - with 42-Mbyte* Hard Disk

* *Built-in MS-DOS data compression doubles capacity to 20 Mbytes and 80 Mbytes respectively.*
