

HEWLETT-PACKARD

Supplies Catalog

for HP Plotters and the HP PaintJet Color Graphics Printer

■ Quality supplies for quality graphics ■

A Great Team!

Your Hewlett-Packard graphics peripherals + Hewlett-Packard supplies

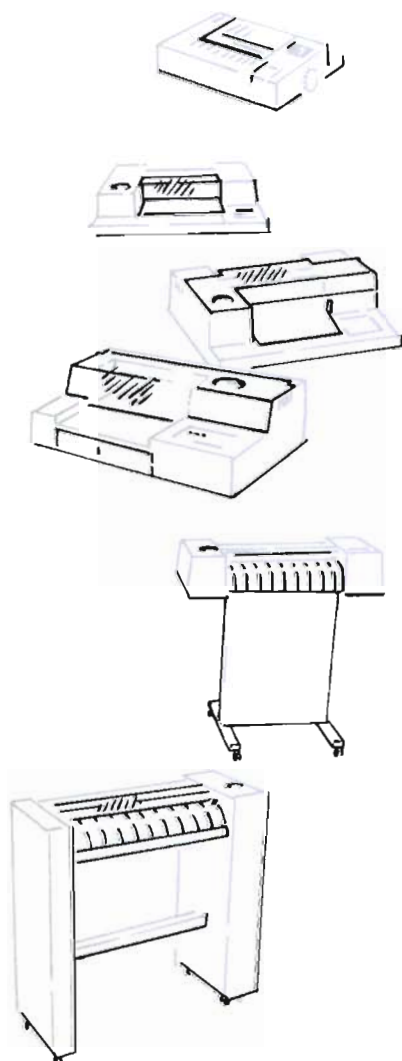

For the very best results . . . use Hewlett-Packard supplies. Quality supplies mean quality results. **And when your graphics look good, YOU look good!**

This catalog will help you discover the best media and pen combinations for your applications,

from presentation graphics to technical/CAD drawings. You'll discover our complete selection of supplies and accessories for HP's family of plotters and the HP PaintJet color printer. And, you'll discover how quick and easy ordering Hewlett-Packard supplies can be!

IMPORTANT

Many supplies listed in this catalog are compatible with older plotters no longer manufactured by Hewlett-Packard. To order supplies for these plotters, call HP-DIRECT at the numbers listed in the How to Order section.

Prices in this catalog are U.S. suggested prices. HP reserves the right to correct printing errors and change prices. Only prices listed on the HP Corporate Price List prevailing at the time an order is received will apply. Dealer prices may vary.

Sheet Media Size Chart

HP DraftPro and DraftMaster can use Architectural media sizes in addition to English and Metric sizes!

English	Architectural	Metric
A (8½ × 11 in.)	—	A4 (210 × 297 mm)
B (11 × 17 in.)	—	A3 (297 × 420 mm)
C (17 × 22 in.)	C (18 × 24 in.)	A2 (420 × 594 mm)
D (22 × 34 in.)	D (24 × 36 in.)	A1 (594 × 841 mm)
E (34 × 44 in.)	E (36 × 48 in.)	A0 (841 × 1189 mm)
—	(30 × 42 in.)	—

Roll Media Size Chart

English
D (24 in. × 150 ft/609.6 mm × 45.72 m)
E (36 in. × 150 ft/914.4 mm × 45.72 m)

Media Care Tips

Here are some tips to help you get the most out of your media!

- Handle media by the edges. Oil from fingers can prevent ink from adhering.
- Avoid plot distortions by stabilizing your media — remove a sheet from the package and expose it to air near the plotter for 15 minutes before plotting.
- When using transparency film, load with the paper backing against the platen.
- Use media with square corners, to allow the pinch wheels to grip and move the plotting medium correctly.

Quality output at an affordable price.

- Good color contrast.
- Our lowest cost media.
- Ideal for everyday graphics.

For the best results:

- Use plotter paper with fiber-tip paper pens for brilliant colors.
- Use PaintJet cut-sheet or z-fold paper with print cartridges for colors that practically jump off the page.
- Use HP paper for the best results. Copier machine papers wear out pens faster and produce low-quality plots.

See the difference HP paper makes

The comparison photos at right were made using the American Optical System at 18.75 magnification. The plots were made on an HP plotter at 20 cm/s with a .3 mm blue pen. Notice how the HP paper's smooth surface enhances line definition, and minimizes skipping, bleeding, and feathering.

*D-size architectural paper not recommended on DraftPro plotter with software that does scaling. Not a problem with most software packages.

**30 x 42 inches.

For presentation quality plots.

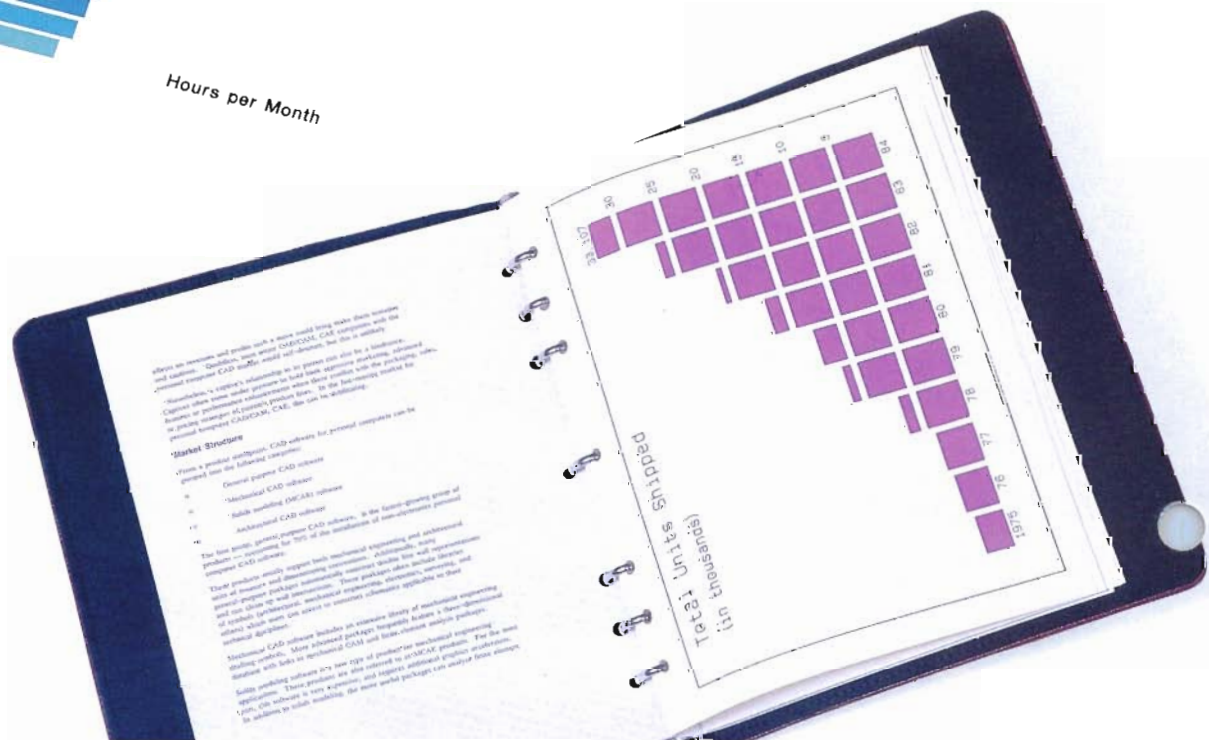

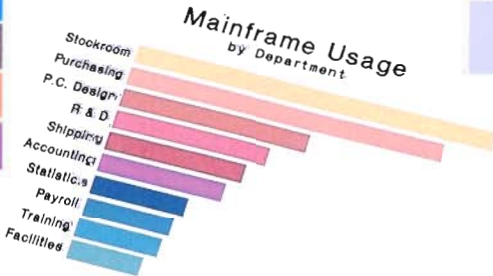

- Highest quality plotter paper available.
- Heavy-weight, gloss-finish paper — quality you can feel.
- Use it with both fiber-tip paper or transparency pens for a wider range of colors.

For the best results:

- Use with fiber-tip transparency pens for presentation-quality plots in deepest colors.
- Or use with fiber-tip paper pens for presentation-quality plots in muted colors.

For overheads that stand out.

Brilliant, well-defined colors will help you make your point more effectively. Backed with paper for protection during plotting or printing. Our plotter film dries quickly, letting you go directly from plotter to projector. PaintJet film comes with protective sleeves.

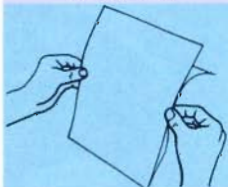

For the best results:

- Use plotter film with fiber-tip transparency pens.
- Use PaintJet film with print cartridges and follow package directions. Always use the protective sleeves included with your film, for maximum image development and protection.
- If plotter overheads will be used repeatedly, store in a transparent plastic sleeve, for added protection.

Helpful Hints

Handle by edges

Protect with sleeves

Quality that lasts.

- Excellent line quality.
- More economical than polyester film.
- Stands up to repeated handling.
- Diazo reproducible.

For the best results:

- Use with refillable drafting pens for final-quality drawings.
- Or use with disposable drafting pens for vellum/paper.

Roll Sizes

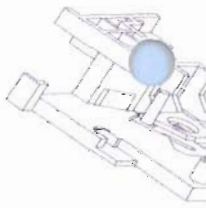

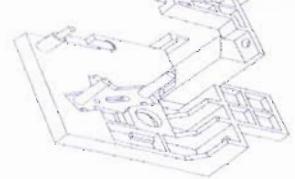

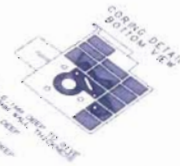

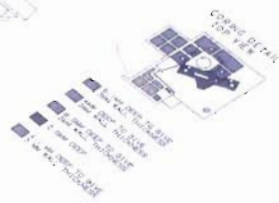

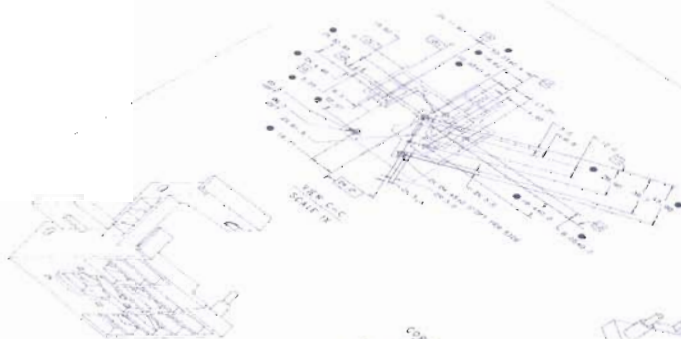

150 ft Roll	Part Number	Package Quantity	Package Price
24 in.	9280-0635	1 roll	
36 in.	9280-0636	1 roll	

Dimensionally Stable

Durable

Our highest quality media.

Ideal for high-accuracy applications.
 Superior for archival storage.
 Highly-translucent for diazo reproductions.
 Double-matte, 3-mil film: will not crack, peel, or fade with normal use.

For the best results:

- Use with refillable drafting pens for final-quality drawings.
- Or use with disposable drafting pens for polyester film to produce final-quality drawings without the maintenance needed with refillable drafting pens.

Pen Care Tips

Here are some tips to help you get the most out of your pens!

- Use the correct carousel for your pen type. Additionally, use the recommended pen speed and force to maximize pen life and line quality.
- Remove fiber-tip pens from your carousel and recap them if you do not plan to plot for several days.
- Remove drafting pens and cap them immediately after use, to prevent drying and clogging. Store drafting pens with the tips up.
- Pens last longer when stored in pen organizers, shown on page 19.
- Occasionally replace carousel boots or clean with a cotton swab.
- Improve the reliability of refillable drafting pens by cleaning them after each plotting session. See our cleaning supplies on page 18.
- Keep disposable drafting pens at a constant temperature (around 72 degrees F) to avoid ink leakage.

Convenience plus brilliance.

Ideal for everyday graphics.

With our cool and warm multicolor packages, color-coordinating your plots is easy.

Colors match fiber-tip transparency pens, so you can duplicate your overheads on paper, color for color.

For the best results:

- Use with plotter paper (non-glossy) for report plots.
- Use with glossy plotter paper for presentation quality.

Give your presentations punch.

Brilliant colors for overhead transparencies or presentation plots.

Colors match fiber-tip paper pens, so you can duplicate paper plots on film, color for color.

With our cool and warm multicolor packages, color-coordinating your overhead transparencies is easy.

For the best results:

- Use with transparency film for outstanding overhead transparencies.
- Use with glossy paper for top-quality presentation graphics.

An easy to use drafting pen with excellent line quality.

Plot 33% faster than with refillable drafting pens with the same excellent line quality.

No cleaning or refilling! What could be easier?

Your choice of 8 colors and 4 line widths.

Dark, consistent line widths are waterproof and fade-resistant.

For the best results:

- For final quality drawings, use disposable drafting pens for polyester film with HP's polyester film.
- Use disposable drafting pens for paper/vellum when you're using vellum or paper.
- Insert the pen tip into one of the pre-filled ink reservoirs, screw on an adapter, shake to start, and go!
- Keep pens at a constant temperature (around 72 degrees F) to prevent ink leakage.

IMPORTANT

HP Disposable Liquid-Ink Drafting Pens require a reusable long-body pen adapter; package of four adapters and four pen caps, HP Part No. 5061-7578.

HP ROLLER-BALL PENS

For fast results.

- Fastest plotting speed — up to 60 cm/s.
- Easy to use.
- Uniform line widths.
- Long lasting! Nearly twice the writing distance of fiber-tip pens.

For the best results:

- Use with plotter paper (non-glossy) for quick and affordable preliminary drawings.

HP REFILLABLE DRAFTING PENS

When precision is important.

- Ideal for your most intricate, precise drawings.
- Versatile enough for your special drafting applications.
- Reusable tungsten carbide points for long wear.
- Available in six standard line widths, from ultra-fine to ultra-broad.

For the best results:

- Use with vellum or polyester film for final quality drawings.
- Maintain your pens for longest life.

Medium	0.50 mm	9260-0744	
Broad	0.70 mm	9260-0579	
Extra-Broad	1.00 mm	9260-0743	

*For special fine-line plotting only. Not recommended for general use on the HP 7475 and HP 7550.

A rainbow of color with the HP PaintJet Printer.

Brilliant colors. Sharp images.

With just two cartridges, you get colors so vivid they nearly jump off the page!

Use PaintJet's print cartridges with transparency film *and* paper.

Long-lasting black cartridge can print approximately 1100 pages of text; color cartridge can typically print 180 pages of moderate (30%) solid-area fill.

For the best results:

- Use HP's specially formulated PaintJet paper and transparency film for crisp, clear text and vivid graphics.
- Prime and wipe pens according to the instructions in your HP PaintJet Printer User's Guide.
- Use PaintJet's transparency mode when using transparency film.

PEN CAROUSELS

The HP DraftMaster plotter uses one carousel for all pen types. All other plotters have unique carousels for different pen types.

Graphics Peripheral	Carousel Type	Part Number	Price
HP ColorPro	Fiber-tip pen*	07440-60085	
HP 7475	Fiber-tip pen*	5061-5080	
	Refillable drafting pen	07475-60030	
HP 7550	Fiber-tip paper pen	07550-60051	
	Fiber-tip transparency pen	07550-60050	
	Roller-ball pen	07550-60052	
	Drafting pen**	07550-60053	
HP 7090	Fiber-tip paper pen*	5061-5080	
HP DraftPro	Fiber-tip paper pen	07570-60050	
	Drafting pen**	07570-60055	
HP DraftMaster I/II	Adjustable carousel	5062-1576	

*This carousel works with both fiber-tip paper and fiber-tip transparency pens. Use the recommended pen speed for each pen type.
 **This carousel works with both disposable and refillable drafting pens. Use the recommended pen speed for each pen type.

Carousel Replacement Boots

Rubber carousel boots cap pens while they're stored in the carousel, to prevent drying. Occasionally clean boots with a damp Q-tip to

remove ink and dust. When replacing boots, order the appropriate type for your carousel. 8 per pack.

Graphics Peripheral	Boot Type	Part Number	Price
HP ColorPro	Fiber-tip pen	5062-0096	
HP 7475	Refillable drafting pen	07475-60038	
	Fiber-tip pen	5062-0096

	Drafting pen	5061-7636	
HP DraftPro	Fiber-tip/roller-ball pen	5062-0096	
	Drafting pen	5062-0097	

Drafting Pen Adapter and Pen Caps

Join your disposable drafting pens to pen adapters before use.

Description	Part Number	Price
4 pen adapters with caps	5061-7578	

Drafting Ink

Description	Part Number	Price
Black (.75 oz)	9260-0596	

Drafting Pen Cleaning Supplies

Cleaning refillable drafting pens after each plotting session improves pen reliability and ensures good line quality.

Description	Part Number	Price
Cleaning syringe	9282-0905	
Cleaning solution (5.2 oz)	9282-0908	

Digitizing Sights

Use the straight digitizing sight with the HP 7475, 7550, DraftPro, and DraftMaster plotters. In addition, with the HP DraftPro you can use the angled-view sight (for more comfortable viewing).

Description	Part Number	Price
Straight sight	09872-60066	
Angled-view sight	07585-60191	

HP Grit Wheel Brush

Keeping grit wheels dust-free ensures accurate paper movement — and plotting. Specially designed for use with the HP 7550, DraftPro, and DraftMaster plotters.

Description	Part Number	Price
Grit wheel brush	5062-1515	

Dust Covers

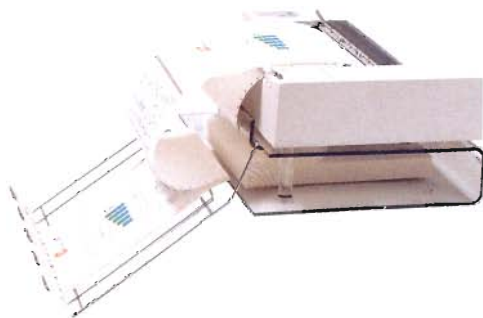

Protect your plotter or printer from the elements (and co-workers). Form-fitting, 100% cotton.

Description	Part Number	Price
HP ColorPro dust cover	07440-60006	
HP 7475 dust cover	07475-60010	
HP 7550 dust cover	07550-60210	
HP PaintJet dust cover	92250Z

PaintJet paper catcher	92261G	

DraftMaster II Take-up Cores

Extra take-up cores for roll media, in two lengths.

Description	Part Number	Price
24-inch (609.6 mm)	9300-1068	
36-inch (914.4 mm)	9300-1069	

DraftMaster II Media Cutter

The quick and easy way to separate multiple roll-feed plots. Five per box.

Description	Part Number	Price
Media cutter	07596-60008	

Pen Organizers

Unclutter your desk with our sturdy pen organizers.

Description	Part Number	Price
Personal 33-pen organizer (holds fiber-tip or short-body drafting pens)	92177V	
Stackable 30-pen organizer (holds 30 pens; stack two to hold 60)		
Short-body pen organizer	92177T	
Long-body pen organizer	92177U	

Graphics Organizers

HP ColorPro

HP 7475

Space-saving plotter stand has an organizer drawer — foam-lined compartments hold all of your plotter supplies. Sturdy acrylic.

Description	Part Number	Price
HP ColorPro organizer 3.75 in. (95 mm) H × 18.75 in. (476 mm) W × 13.75 in. (375 mm) D.	92177W	
HP 7475 organizer 3.75 in. (95 mm) H × 23.50 in. (597 mm) W × 14.75 in. (375 mm) D.	92177X	

Desktop Plotter/Printer Stand

Use with HP desktop plotters and the HP PaintJet color graphics printer.

Description	Part Number	Price
Stand	92269A	

Plotter Sound Enclosure

Sound-suppressing particle board and half-inch foam lining cuts plotter vibrations to a murmur. Fits the HP ColorPro and HP 7475 plotters.

Description	Part Number	Price
Sound enclosure	92166E	

You're a VIP to HP!

As our valued customer, it's our business to make sure you're satisfied. That's why all Hewlett-Packard plotter supplies are warranted against defects in materials and workmanship for 90 days from the date of shipment. HP will replace any item which proves to be defective.

Understandably, this warranty does not apply to damage resulting from misuse. Also, HP cannot be liable for any special, incidental, or consequential damage.
