1988 PORTABLE PAPER SUBSCRIBER'S DISK

Dear Subscriber,

Thank you for your interest in The Portable Paper.

To show our appreciation for our 1988 subscribers, we have collected a number of useful programs for the HP Portables and have included them on the 1988 Subscriber's disk. A description of the programs can be found on the other side of this page.

Highlights include a format program that allows users of the HP110, Portable Plus, and IBM PC with the HP-IL link card to format an HP9114 3 1/2" disk in IBM format, an excellent file organizer for the Portable Vectra, Lotus templates, a new Time Manager utility, a Plus MemoMaker patch instituting a destructive backspace key, and much more.

We hope you find the programs on this disk useful, and we know you will enjoy your subscription to The Portable Paper.

Thank you,

Hal Goldstein,
President

P.S. If your subscription covers at least one 1988 issue, then you may receive the disk. To receive this software send us a self-addressed stamped envelope with a formatted 3 1/2 inch double-sided disk, and we'll put the software on the disk at no charge. Or send us \$7.50 for the disk and postage.

If you ordered a three or four year subscription of The Portable Paper, we will send you the disk at no charge.

P.P.S. IMPORTANT: All the programs on the 1988 subscriber disk are archived. If you are not familiar with "unarc"ing files, see file READ-ME on the 88 subscribers disk. (You can type PRINT C:READ-ME from DOS or look at C:READ-ME in your word processor. If your subscribers disk is in another drive besides C, substitute the disk drive letter for C in the above command.)

Note: TJCTRL, the ThinkJet printing program, is a new addition to the subscribers disk.

1988 PORTABLE PAPER SUBSCRIBER'S DISK

arce.exe - Archive extraction program. Use this to unarchive all files on Subscriber's Disk. (110, Plus, Vectra)

addr - Searches Time Manager address list without starting Time Manager. Displays the complete address list entry, and starts a letter to the person in the default Memomaker file. It can also print addresses for envelopes, and can handle multiple names at the same address with a single address list entry. (110, Plus)

boole - Lotus 1-2-3 worksheet designed to be used as a tutorial for computer students on Boolean algebra. (110, Plus, Vectra)

clockprg - Graphic clock program. (110)

compare - This program displays the differences between two similar text files. It will show you where you have inserted, deleted, or changed blocks of text from one version to the next. (110, Plus, Vectra)

cursor - This batch file changes the cursor from underline to box or vice-versa, without having to go through system config. (The box cursor is almost always preferred.) (110, Plus)

expenses - The travel expense report worksheet is a Lotus 1-2-3 wks file designed to meet the needs of HP employees and others who must record their company travel expenses. (110, Plus, Vectra)

formibm - allows HP9114 to format 3 1/2" disks in IBM format. (110, Plus, PC HP-IL Card)

hangman - Simple HANGMAN game implemented as a rather complex Lotus 1-2-3 wks. Studying this wks file gives tremendous insight into Lotus macros. (110, Plus, Vectra)

hplstuf - This utility allows you to rename the printer and plotter device from names that come with the HP82973 Portable DeskTop Link card (PDL) to names popular software recognizes (e.g. from hplprn to prn). (110, Plus)

input - This tiny COM file adds interactive abilities to your batch files. (110, Plus, Vectra)

jetctrl - memory-resident program that allows you to configure your ThinkJet, QuietJet, PaintJet or LaserJet printer while in the middle of any program. (Plus)

landmine - This is a game in which you try not to be blown up by landmines while crossing the playing field. (Plus)

mm - This program makes the backspace key work properly in MemoMaker on the Portable Plus. (Plus)

newmode - Puts the HP110 or Portable Plus into alternate screen and console mode without selecting System Config from the main PAM applications menu. Alternate mode is

required by many programs that use function keys or display line-drawing characters. (110, Plus)

off - Turns the Portables off from DOS. (110, Plus)

offplus - Reports battery status, turns the Plus off, and secures it. (Plus)

pass - This program provides password protection to prevent unauthorized person from logging on to your Portable. (110, Plus, Vectra)

patchtm - Modifies Time Manager so it will have a block cursor rather than an underscore cursor. (110)

pcboss - Excellent disk management program. (Vectra)

pcrun - runs programs on the Portable Plus in a way that slightly increases its compatibility with IBM PC's. (Plus)

playit - This set of Turbo Pascal procedures shows you how to change the frequency and duration of the beeper on the Portable Plus and also how to change the frequency on the HP110. With these techniques, you can play music. Those who own Portable Pluses should find the sample amusing. (110, Plus)

ppterm - PPTerm allows efficient XMODEM and ASCII file transfer, customized especially for use in CompuServe as well as features like user-defined function keys and stored configurations. Compatible with MH-BBS key files. (Plus)

prnconf - This utility sends an HP-IL ThinkJet printer what it requires to emulate an Epson printer. (110, Plus)

qix - Plays game of QIX. (Plus)

rb - Re-boots the Portable Plus. (Plus)

rdtest - RAM disk diagnostic program for the Portable Plus. (Plus)

reflect - This archive contains several command files for use with Reflection and the HP3000 (Plus)

sci - Small C Interpreter (110, Plus, Vectra)

scope - HP-IL Analyzer program. (Plus)

scrsz - Changes the screen size for HP110 dBASE II to fit the Portable Plus. (Plus)

ser - Displays serial number. (110, Plus)

stat - Lotus 1-2-3 Statistics Template for the HP Portables This program generates statistics in Lotus 1-2-3. (110, Plus, Vectra)

stk - DOS command editor. (Plus)

tm - Converts the name and address from Time Manager files to the form required by Executive Card Manager. (Plus)

xmodem - XMODEM for the Portable Plus. See also PPTERM (Plus)

yahtze - Yahtze game. (110, Plus, Vectra)
