

# HEWLETT-PACKARD

## HP Peripherals For Series 200 & 300 Computers

# Expand Your Computer's Productivity . . .

## **Increase Your Productivity With Fast, Dependable Hardcopy and Data Storage**

Congratulations on selecting a premium Hewlett-Packard computer! Here's valuable information to expand your computer's productivity and increase your personal efficiency. This brochure will help you select plotters and printers for professional quality hardcopy, and HP disc and tape drives for dependable data management.

## **Reliable Peripherals Increase Productivity**

HP engineers know that when your equipment is up and running, you spend more time thinking and less time tinkering. Every HP product goes through rigorous product testing, so your equipment is ready to work when you are.

## **High Performance Boosts Productivity**

You'll find HP hardcopy peripherals to produce paper and transparency output at the speeds you need, and HP data storage systems to increase your computer's response and running time.

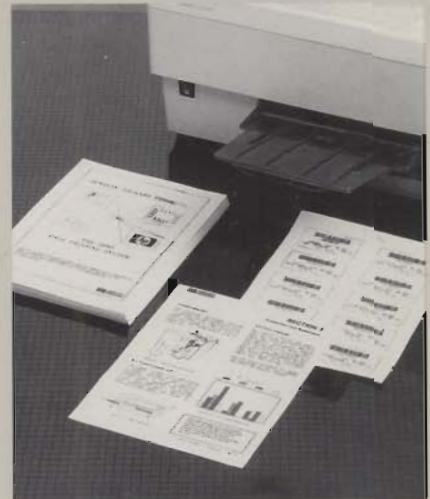

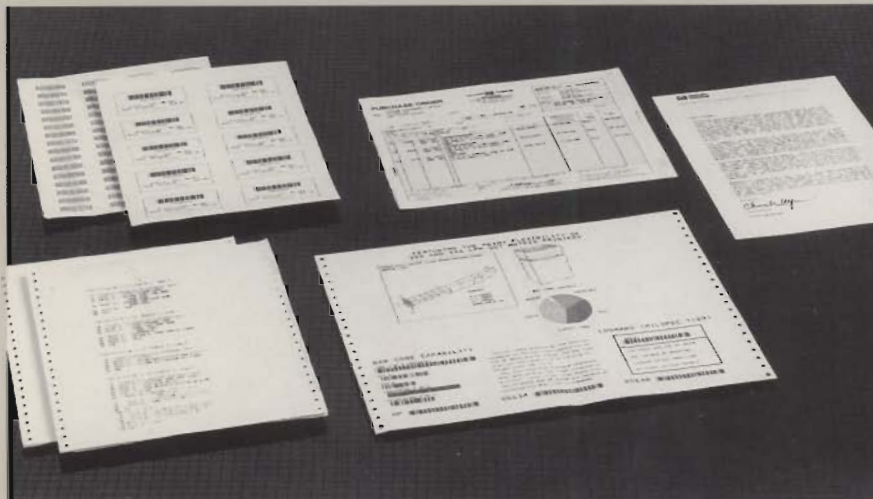

But there's more to performance than just increased throughput. HP quality means you'll have professional quality CAD/D plots and business correspondence. Read about HP peripherals, then send us the attached response card to receive more product information. Your HP Sales Representative or Dealer can also help you choose the best peripherals for your computer.

# Printers

## HP Personal Workstation Printers Give You Quiet Output

For workstation output, HP's technically advanced printers excel at printing pages quietly. You won't even notice a compact ThinkJet printer making printouts in your office or lab. And the HP LaserJet family of printers gives you publishing-quality output, different typestyles, and merged text and graphics almost inaudibly.

You'll find a daisywheel impact printer for letter-quality correspondence and business forms. Versatile HP workstation printers supply convenient hardcopy for data capture, memos and program listings, and high quality hardcopy for formal technical reports and professional correspondence.

## HP Shared Printers Shoulder Your Workload

High-speed HP printers efficiently handle the daily printing volumes of single or multiple workstations. Dot matrix impact printers make bar code labels, merge text and graphics for technical publications, and print on multi-part forms, in addition to general printing tasks.

HP Printers		
Supported on utilizing	Series 200 Computers	Series 300 Computers
	Basic 3.0 or later, Pascal 3.0 or later, HP-UX 2.1 or later	Basic 4.0 or later, Pascal 3.1 or later, HP-UX 5.0 or later
<b>Personal Workstation Printers:</b>		
<b>Model</b>		
ThinkJet Printer, 150 cps inkjet		
LaserJet/LaserJet Plus, 8 ppm laser		
2603A	48 cps daisywheel	
<b>Shared Printers:</b>		
2932A	200 cps dot matrix impact	
2934A	200 cps dot matrix impact, 2 speed, cut sheet paper bin accessory available	
2563A	300 lpm dot matrix impact	
2564B	600 lpm dot matrix impact	
2566B	900 lpm dot matrix impact	
2567B	1200 lpm dot matrix impact	
cps = characters per second, ppm = pages per min., lpm = lines per min.		

Note: This listing is only a guideline. To assure a correct configuration and the most up-to-date product information, always request a formal quotation from an HP Sales Representative or Dealer. Your operating system and intended applications may make a difference in the suitability or compatibility of a peripheral.

# Data Storage

## HP Data Storage Gives You a Growth Path

When you want to expand your system memory, or need to protect irreplaceable data, you'll find a broad selection of on-line system storage and data backup systems. HP data storage peripherals combine storage media so you can have storage and backup capabilities in one peripheral.

- **HP Flexible Disc Drives** — store and share your word processing files, spreadsheets and data files on removable discs.
- **HP Hard Disc Drives** — speed up processing time with quick data access, and expand the selection of programs you can run.
- **HP 1/4" Cartridge Tape Drives** — store your data files on cost-effective, reliable tape for backup, archive, or easy data transfer between systems.

## HP Data Storage Devices

Supported on utilizing	Series 200 Computers Basic 3.0 or later, Pascal 3.0 or later, HP-UX 2.1 or later	Series 300 Computers Basic 4.0 or later, Pascal 3.1 or later, HP-UX 5.0 or later
------------------------	---	---

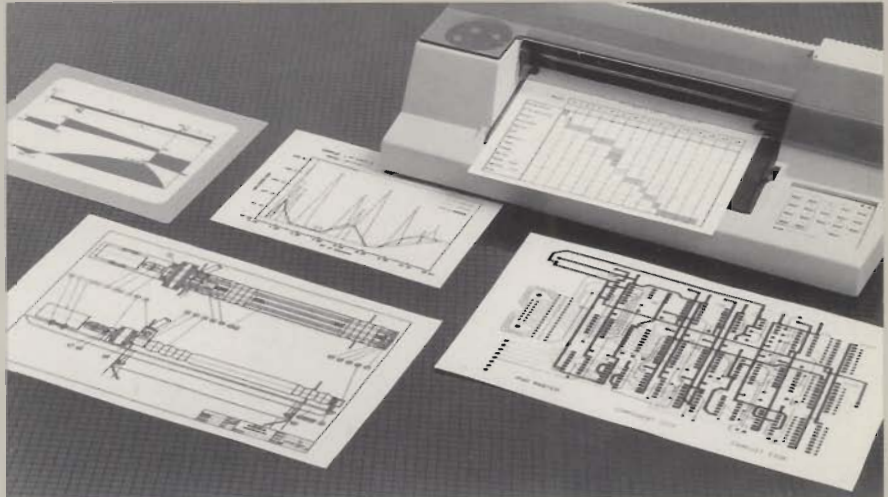

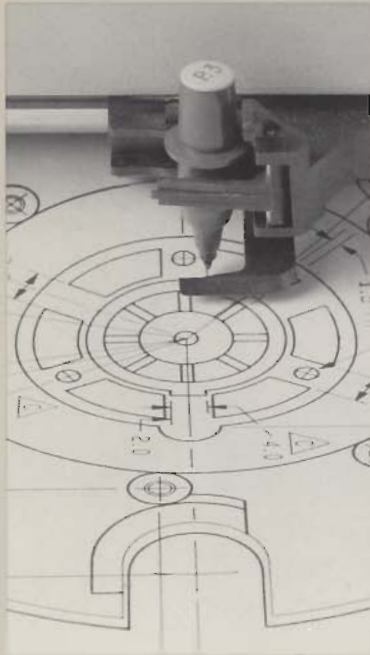

### Model

9133H	20 mb hard disc & 3 1/2" flexible disc drive	
9134H	20 mb hard disc drive	
7941A	24 mb hard disc drive	
7942A	24 mb hard disc & 1/4" cartridge tape drive	
9133L	40 mb hard disc & 3 1/2" flexible disc drive	
9134L	40 mb hard disc drive	
7907A	20 mb hard disc & 20 mb removable disc cartridge	
7945A	55 mb hard disc drive	
7946A	55 mb hard disc & 1/4" cartridge tape drive	
7912P/R	66 mb hard disc & 1/4" cartridge tape drive	
7914P/R, CT	132 mb hard disc & 1/4" cartridge tape drive	
9144A	1/4" cartridge tape drive

Your operating system and intended applications may make a difference in the suitability or compatibility of a peripheral.

# Plotters

## HP Desktop Plotters For Measurement/Automation

HP desktop plotters add color and comprehension to your graphs on media up to 11 × 17 in. (ANSI size B, ISO size A3). Connected to your computer, an HP plotter draws precise graphs of raw data or analyzed results. You quickly spot trends and variations on high-resolution color plots, and have a permanent record of your results. Your plots are ready for technical reports and can also be drawn on overhead transparency film for presentations.

## HP Plotters For CAD/D and CAE

HP desktop plotters are ideal for engineers who want to add hardcopy output to their CAD/D or CAE systems. Desktop plotters offer small format versatility — you can create working drawings on paper, archival drawings on polyester film, or overhead transparencies for presentations.

When you need larger formats, HP drafting plotters produce color drawings on up to 36.2 × 48.5 in. sheets, (ANSI size E, ISO size A0, with long axis plotting capability to 150 ft). HP drafting plotters feature rapid pen acceleration and velocity so you don't sit around waiting for plots to finish. You can make changes in your most complex designs, and easily and quickly have precise, updated renderings.

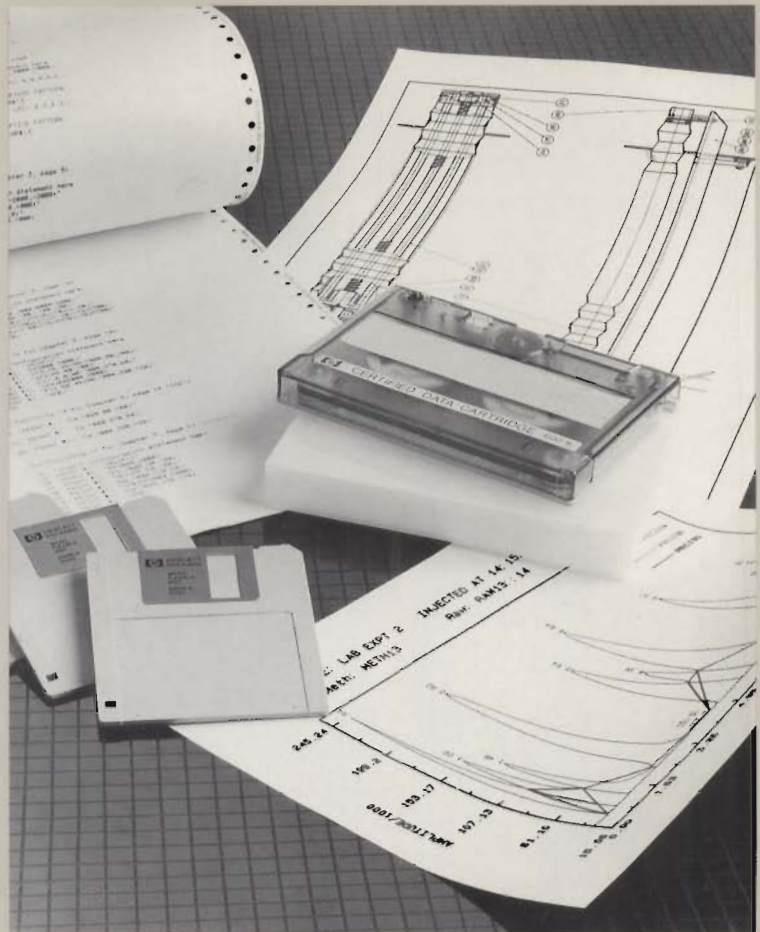

### HP Plotters For Series 200 and 300 Computers

#### Desktop Models:

Media sizes 8½ × 11 in. and 11 × 17 in.  
(ANSI A & B, ISO A4 & A3)  
Sheet feed capability available

#### Drafting Models:

Standard sizes up to 36.2 × 48.5 in.  
(ANSI A-E, ISO A4-A0)  
Roll feed capability available
