

Series 200

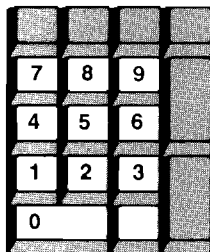

Keyboard Card Instructions

- To access symbols from the "keyboard" side of this card, type the corresponding key. The left-most symbol is lowercase (unshifted) and the right-most is uppercase (shifted).
- To access* the symbols from the table on this side, hold down [Alt]. Using your numeric keypad, type in the three-digit decimal number shown below the symbol you want. Release [Alt].
- This layout is for US English keyboards only.

* Method not for all software. MS Windows requires a leading zero.
